

AQUILA

MISS JANET E. HENRY
220 North Main Street
YOUNGSVILLE, PA.

AQUILA

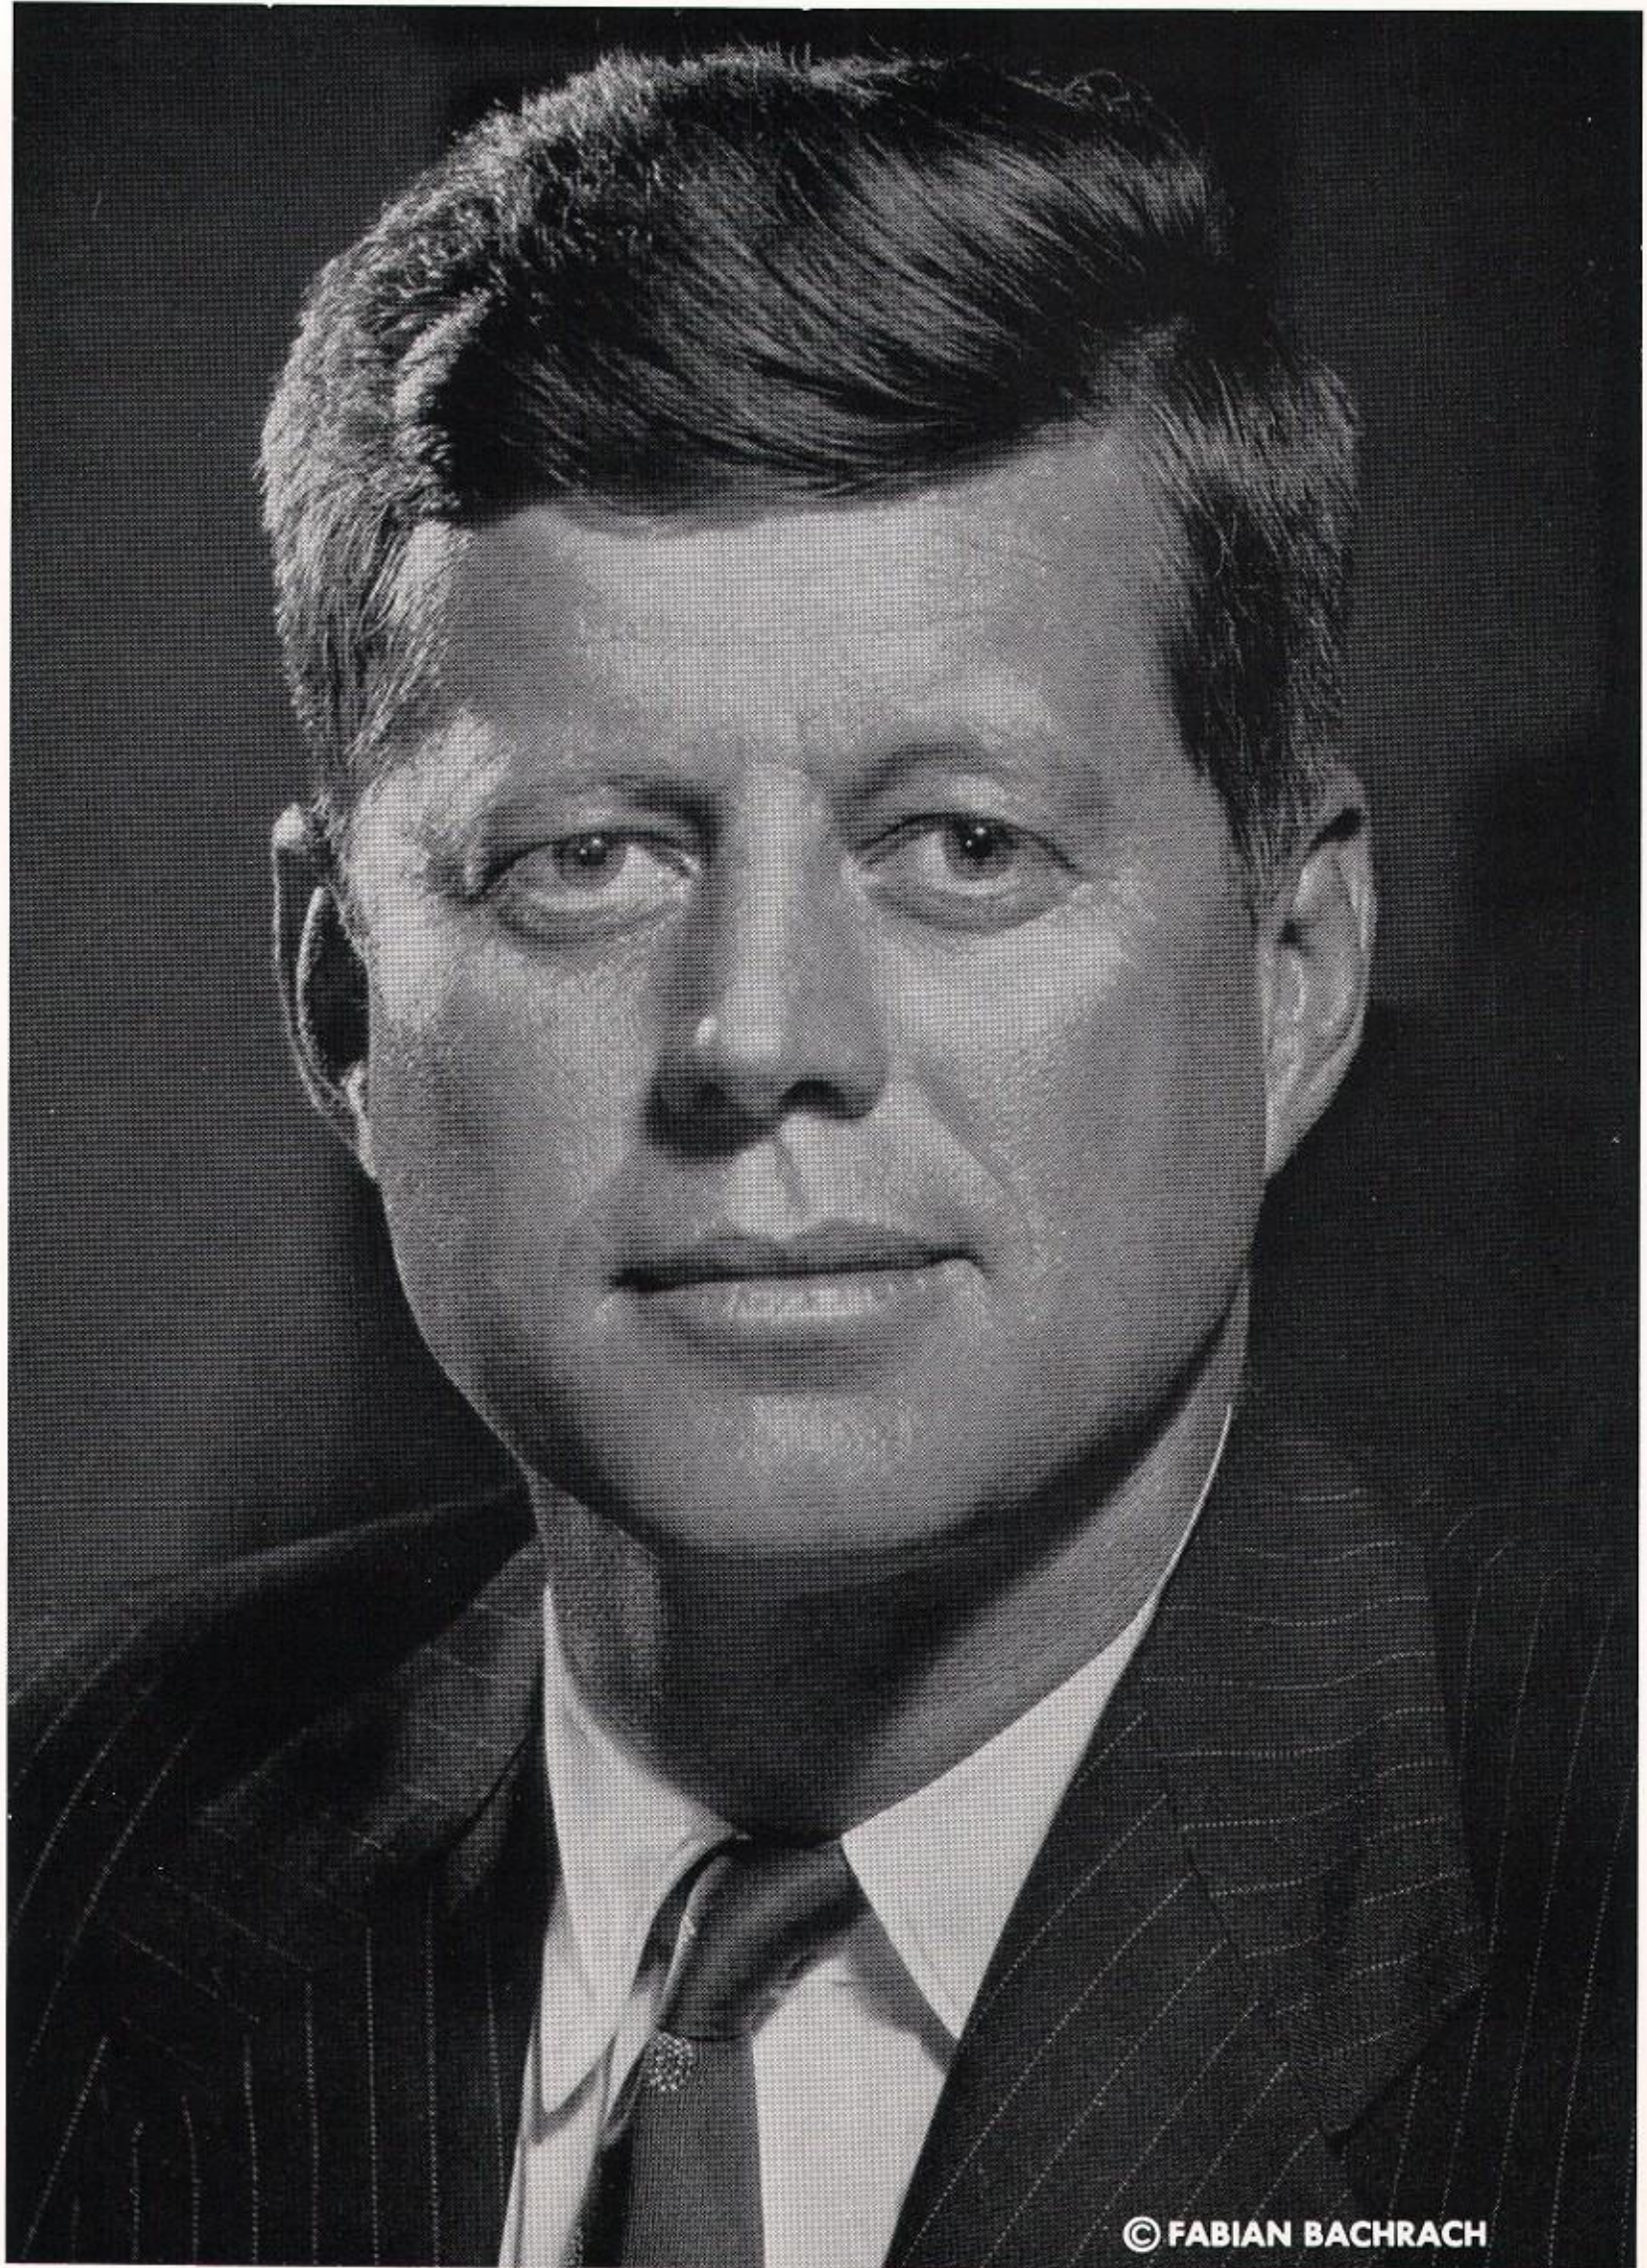

The spirit of youth is of great importance to our school, for without it we would lose many of our goals. The cheerleaders help the teams each year by holding pep assemblies and attending every game. This year the newly organized Pep Club, open to all students, will add a great deal to the support of our athletic competitions. School spirit has boosted the football team to a successful season in winning the Crawford County League Championship. With the cooperation of everyone we have also done quite well in basketball and track. The spirit of YHS students reveals itself throughout the year in the support of the other school functions as well.

MEMORIAL

JOHN FITZGERALD KENNEDY
35th President of the United States

DEDICATION

Mr. Ernest K. Oviatt has served our community as a school director for nineteen consecutive years prior to the expiration of his term, December 1, 1963. Over the years, he served as secretary of the Brokenstraw Township School Board, and later of the Brokenstraw Valley Joint School Board. Since 1957 he served continuously as president of the Brokenstraw Valley Joint Board and the Brokenstraw Valley Merged Board. In December 1961, he was elected to the Warren County Board of School Directors and served as secretary of that group continuously until December 1, 1963.

During his long tenure as a school director, he compiled an enviable record of never having missed a school board meeting. Mr. Oviatt has been most faithful to the cause of public education, and his dedicated efforts for better educational opportunities for the young people of our district and county will be missed.

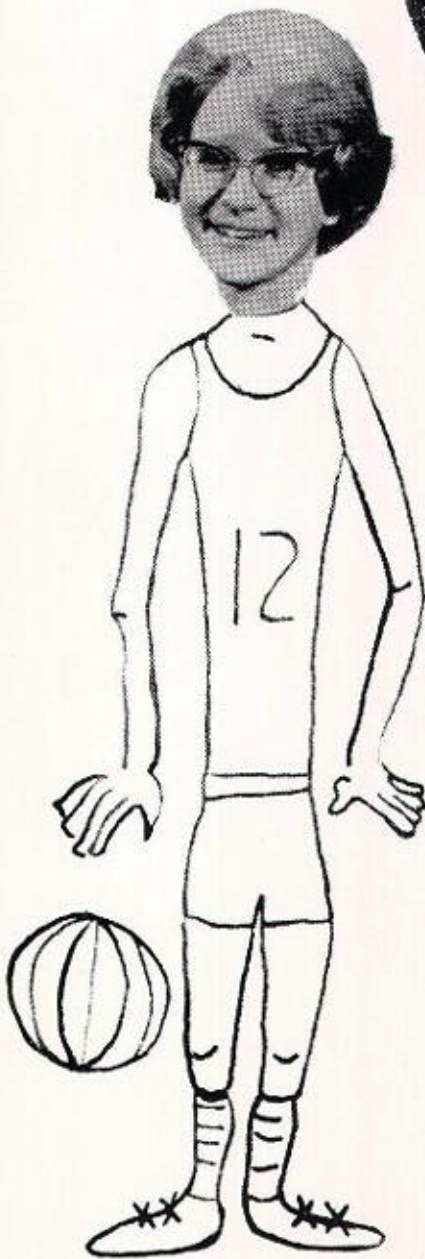

Mr. Oviatt is employed as a Test Engineer by the National Forge Company at Irvine, Pennsylvania, where he has worked continuously since his graduation from Youngsville High School in 1933.

FOREWORD

The 1964 Aquila staff hopes that this edition of the yearbook will stand as a lasting reminder of the past year at Y.H.S. to all those people who are pictured on its pages. The Senior Class colors, green and silver, were used for the cover as was the Eagle, which is symbolic of our High School. The Book's theme is "School Spirit" which we tried to carry throughout the book starting with the end sheets, which depict the bonfire so familiar to all Youngsville students on the eve of the Northern Area football game.

This Aquila has arrived later than was hoped, but it is the desire of next year's staff to return to the early delivery date.

AMERICAN FIELD SERVICE

I left New York City on June 25, 1963, and sailed on the *M. S. Seven Seas* to Rotterdam, Netherlands. Traveling by train with other AFS students, we crossed the Netherlands, Germany, Denmark, and Sweden. From Sweden, I went by ferry to Turku, Finland; where I was met by "my family." Leaving Turku, "my family" and I traveled to their summer cottage near Pori; where we lived for one month. After this time we left for Kuopio, a city in eastern Finland with a population of 50,000. Here, at the permanent residence of "my family," I remained until joining other AFS students in Helsinki for the final week and the trip back to America.

I lived with the Mattila family, consisting of "my mother" and "father" and three "sisters": Marjoana, 16; Marketta, 15; and Kirsti, 9. "My father" was the managing director of several banks.

As most AFS students, I learned a great deal from my stay in Finland. We all feel that everyone has a wonderful family in another country.

Inga poses at home with her two American sisters, Connie and Bonnie Anderson.

Iceland is said to be, "a land of frost and fire," "a wonderland of contrast," "a land of the midnight sun," "a land of unique natural beauty, symphony of colors and bad roads."

Inga in her native Icelandic dress.

Being your foreign exchange student this year, I would like to tell you a few things about myself and my country. Iceland obtained its name by accident. It actually should be Greenland, because Iceland is green and Greenland is ice. The population of my country is 180,000 and the capital is Reykjavik. Iceland has been a democratic, Sovereign Republic since 1944. The President is elected every four years by a popular vote in which every Icelander, 21 years and older, can participate. Schooling is compulsory from the age of 7 to 15. Every Icelander who has the ability can always obtain further education in specialized schools.

I live on a small island off the south coast of Iceland. The name of the island is Vestmannaeyjar, The West Men Island. The main industry is fishing, and there are five fish factories on the island. Most of the students work in these factories during the summer.

I live with my mother, Hulda; my sister, Bjorg (18); and my two brothers, Birgir (23) who is a carpenter, and Laugi (13) who is in the equivalent of your ninth grade in school. Bjorg stayed in the U.S.A. for one year with my relatives and is now in college in Norway.

I have enjoyed my stay in America very much and I hope that you will come to Iceland some day to see my country.

Jane Zurcher leaves her ability to blush to any unlucky junior.

Jeanette Zurcher leaves her seat in P.O.D. class to Shirley Lamar.

THESE ARE THE LAST RIGHTS
OF THE CLASS OF 1964.

Students of Youngsville High School:

It is with a great deal of appreciation that I address you through this medium. I appreciate the efforts of the Aquila Staff for the time and effort expended in making the 1964 Aquila a reality.

It has been most gratifying to experience the cooperative efforts of the students, student groups, and faculty as the building project was successfully completed. The efforts of Mr. H. J. Sherwood, Supervising Principal of the Brokenstraw Valley School District, and the time and efforts of a sympathetic school board are to be commended.

The added facilities, particularly the auditorium, will mean an expanded curricular program and a better activities program for music, dramatics, and assemblies. This will mean that students will have a better overall educational program.

I, along with the staff, congratulate the Class of 1964 for completing the necessary requirements for graduation. It is hoped that the education which they have been given at Youngsville High School will be a firm foundation upon which members of this class can build a successful career. The Class of 1964 has been outstanding for its cooperativeness, scholastic efforts, and its efforts to build and maintain excellent school spirit. It has set a fine example for the remainder of the student body in all phases of school life. It will be a challenge to the incoming seniors to maintain the pace which the Class of 1964 has established.

Felix Matthews
High School Principal

The role of public schools in our society is rapidly becoming more vital and therefore more demanding. Our late president, John F. Kennedy, shortly before his tragic death noted that: "Our progress as a nation can be no swifter than our progress in education. Our requirements for world leadership, our hopes for economic growth, and the demands of citizenship itself in an era such as this require the maximum development of every young American's capacity."

You students are challenged by the very time in which you live to take advantage of every available opportunity to develop yourself educationally to the utmost of your capabilities. Your school board in a like manner is challenged to provide for you as many opportunities as is feasible. You need only to look at the expanded program now available to you and the enlarged and additional facilities for your use to realize the sincerity with which the school board and the community is meeting their challenge.

To you graduates of 1964, I would say you are about to face new challenges. The degree to which you have availed yourself of opportunities in high school will determine quite largely how well equipped you are to meet these new challenges of adult life.

To you who have yet to complete your high school education, I would say make yourself as aware of the opportunities available to you and through planning with your parents, counsel with your teachers, and extended effort on your part, take full advantage of that part of your school program which still lies ahead.

H. J. Sherwood

SCHOOL BOARD

Left to Right: Standing: Noyd Chappel, Robert Scott, Marlin Schnell. Seated: Urno Gustafson, Jr., Robert Spencer—President, Kenneth Franklin—Vice President, Doris Rapp. Not Present: Frank Briggs, Lavina Frew, Florence H. Spencer—Secretary.

SECRETARIES

Mrs. Ann Johnson is Mr. Matthews' private secretary and also secretary for the high school. Her duties include making up the daily bulletin, typing tests, doing account work for school activities, and recording students' grades in the permanent record folders.

Mrs. Florence Spencer is secretary of the school board. Besides doing the payroll work and keeping the minutes for the meetings, she does the bookkeeping for the school district.

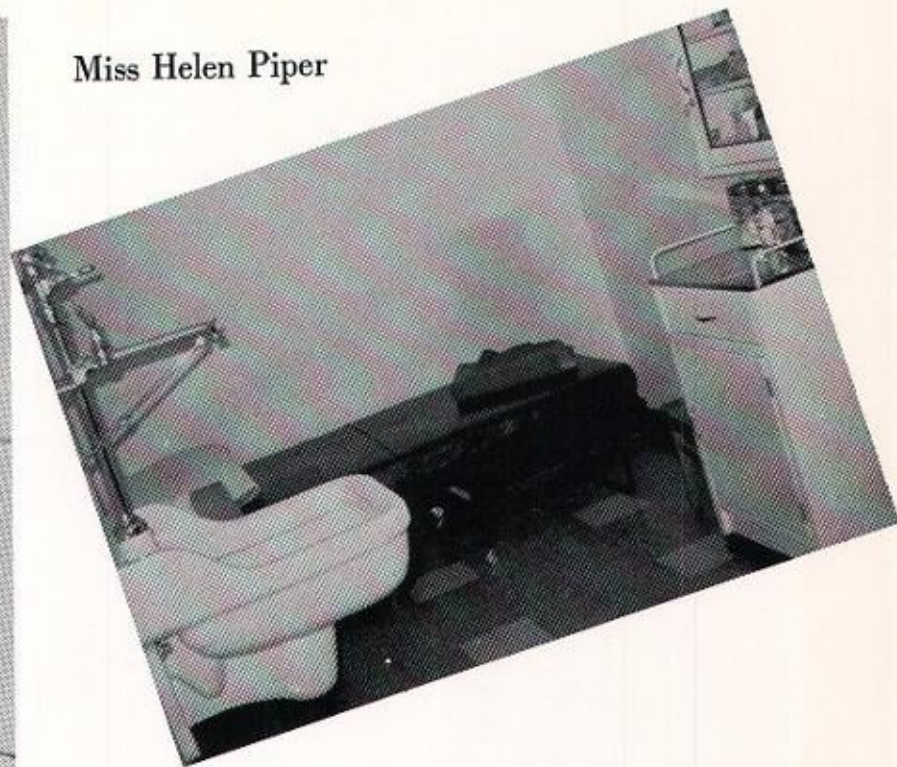

Mrs. Leila Craft is Mr. Sherwood's secretary. Her duties include typing letters, taking care of the cafeteria accounts for the school district, processing orders for supplies, and acting as a receptionist.

HEALTH SUITE

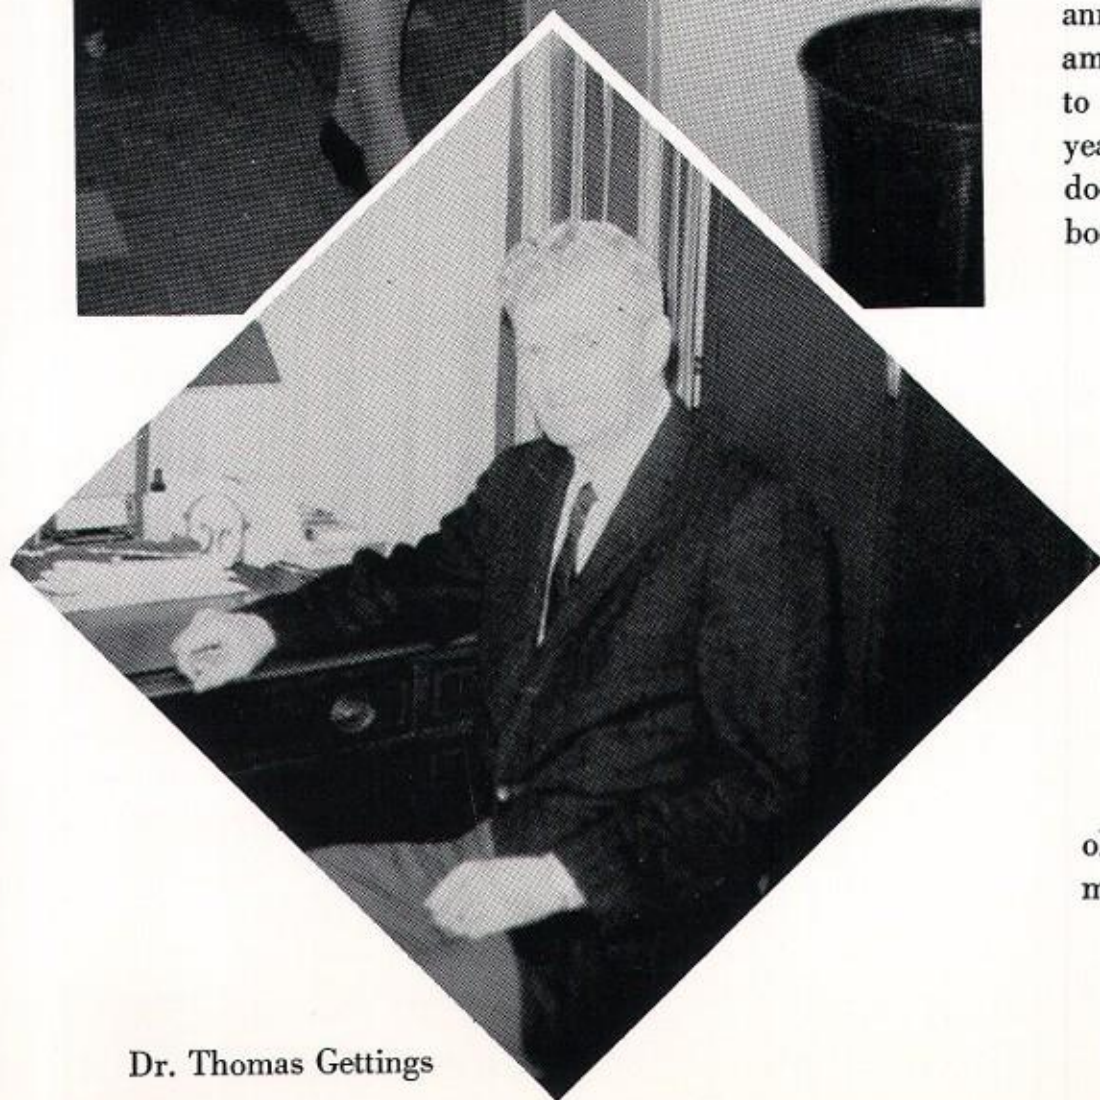

Miss Helen Piper

Do you have a headache, upset stomach, watery eyes, or maybe even the measles? Go see Miss Piper!

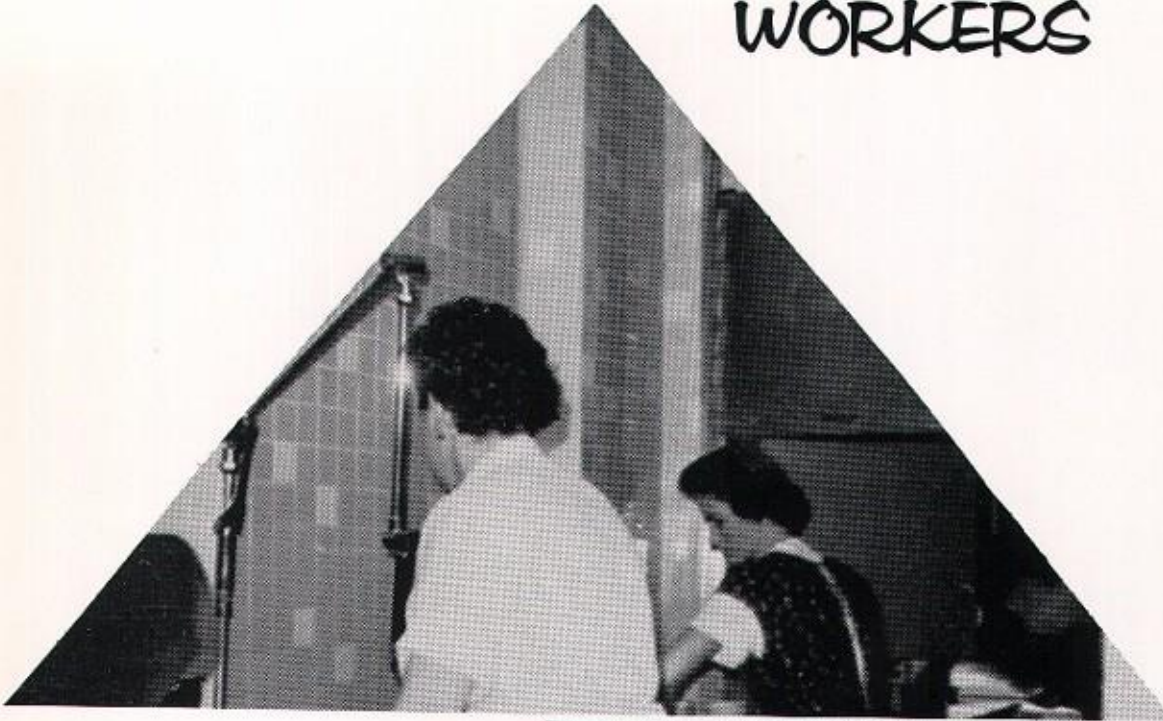

Miss Helen Piper is the nurse for all the schools in our district. She administers first aid in the case of accidents, weighs and measures all students, tests students' eyes and ears annually, and assists in dental and medical examinations. The medical examinations are given to the seventh and eleventh grade students each year by Doctor Thomas Gettings, the school doctor. Dr. Gettings also gives physicals to boys who are trying out for sports.

Dr. Thomas Gettings

This year the Health Suite was moved to the old art room. The additional space provides more room for records and equipment.

ENGLISH

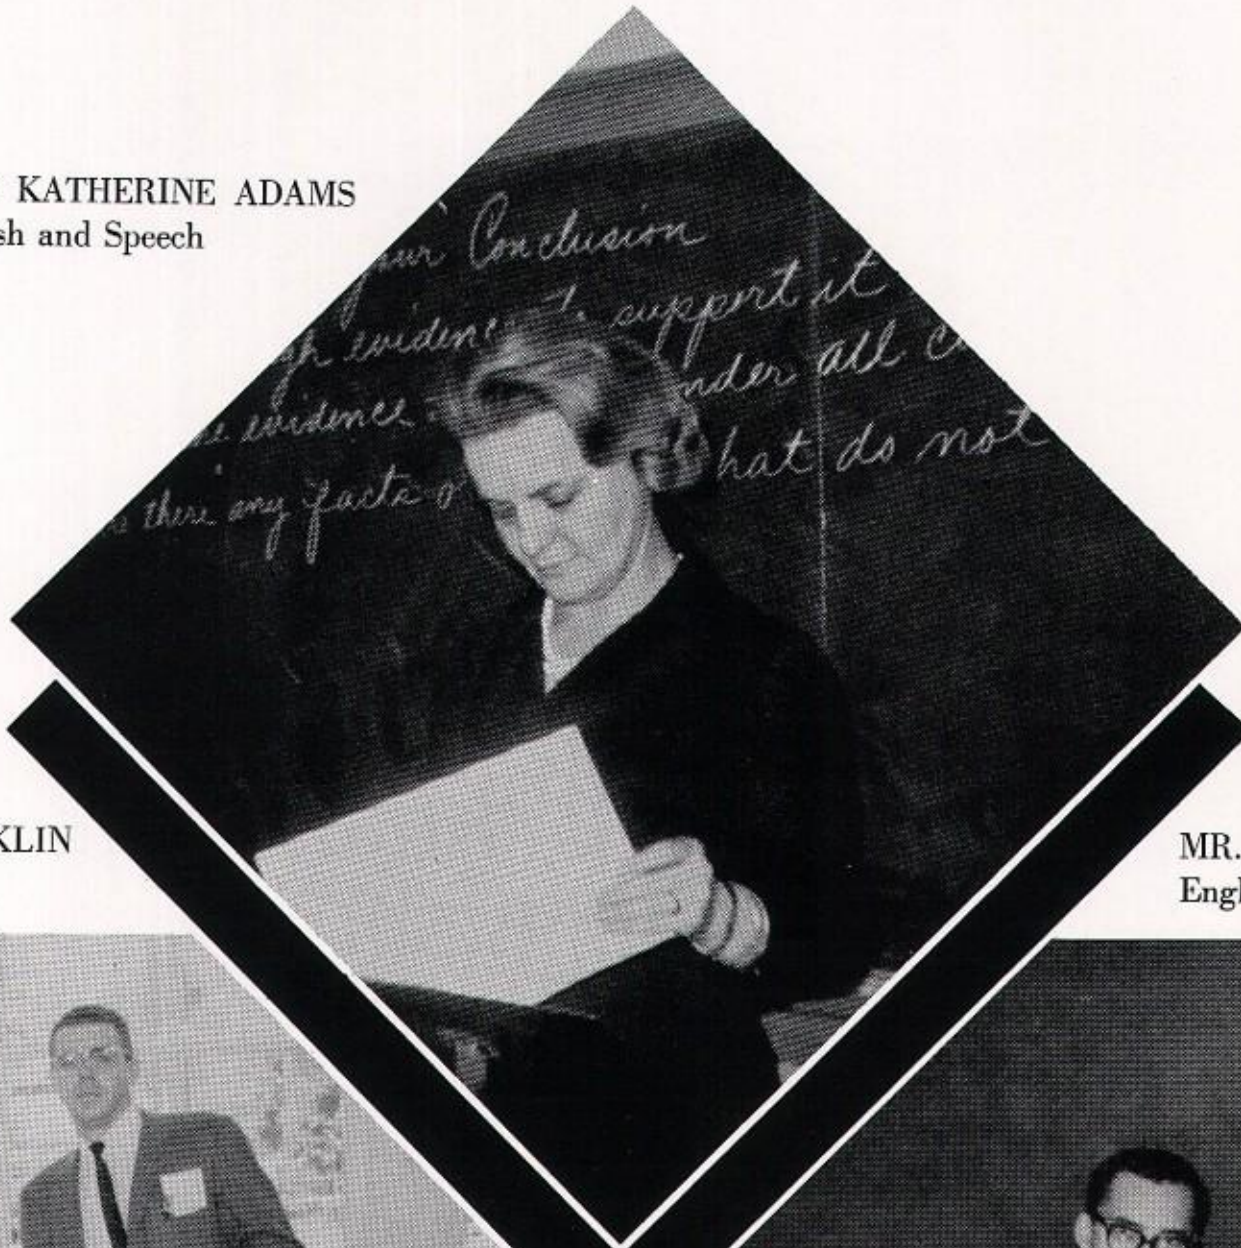

Have you mastered the basic skills of the English language: word usage, spelling, pronunciation, and sentence structure? Competence here is the purpose of all English courses. English is a required course for all students from grades seven through twelve. For seniors planning to attend college, a speech class is offered.

English can be called the foundation of

our education. Lack of ability to communicate effectively in either a subject, a situation, or a position could cause sudden failure.

Progressive movements in all occupations call for more and detailed communication. How we progress in our chosen field may depend on what we have learned in our English classes here at Y.H.S.

Upon entering Junior High School, those having trouble with reading will appreciate Miss York's reading class. This course is taught to seventh and eighth grade students, and it provides a basis for all other studies. A reading scale is used to improve the student's comprehension and speed. All students are given a placement test to determine at which level they are capable of reading. They then advance at their own speed to more difficult reading material as they improve.

HISTORY

MR. ALAN TUBBS
Social Studies and Geography

History, a vital phase of our curriculum, is comprised of many different courses. History gives each of us a knowledge of our country's heritage and an awareness of the various functions of the government.

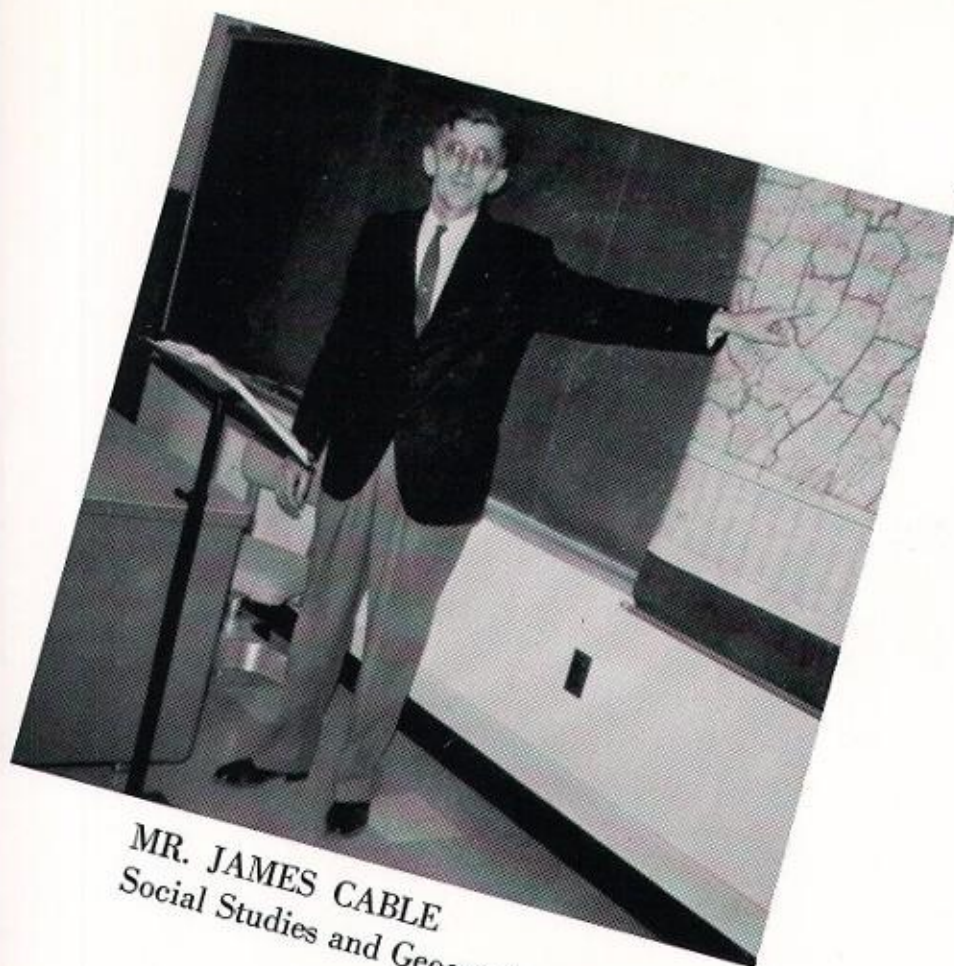

In the seventh grade, the foundation for understanding our history is begun by studying Ancient History. In eighth grade, the students study American History. Pennsylvania History, taught in the freshman year, gives continuity to American History while enlarging our scope by moving to the local level. Sophomores concentrate on World History, which is important in developing an insight to world problems. American History is again studied in the junior year, this time from a more adult point of view aimed at the background and development of democracy. Problems of Democracy, Economics, and Sociology are studied by seniors. These courses are planned around direct application of ourselves to contemporary problems.

Mathematics

Have you ever wondered what two and two are? Students who have gone through the Y.H.S. math department usually know this simple fact. Their high school math training begins with a general math course in the seventh grade. The majority of the eighth graders take general math, while a few take Algebra I as the ninth graders do.

Even if you can't solve algebra problems you can have fun drawing, as these juniors illustrate.

MR. ROBERT WAGNER
Mathematics

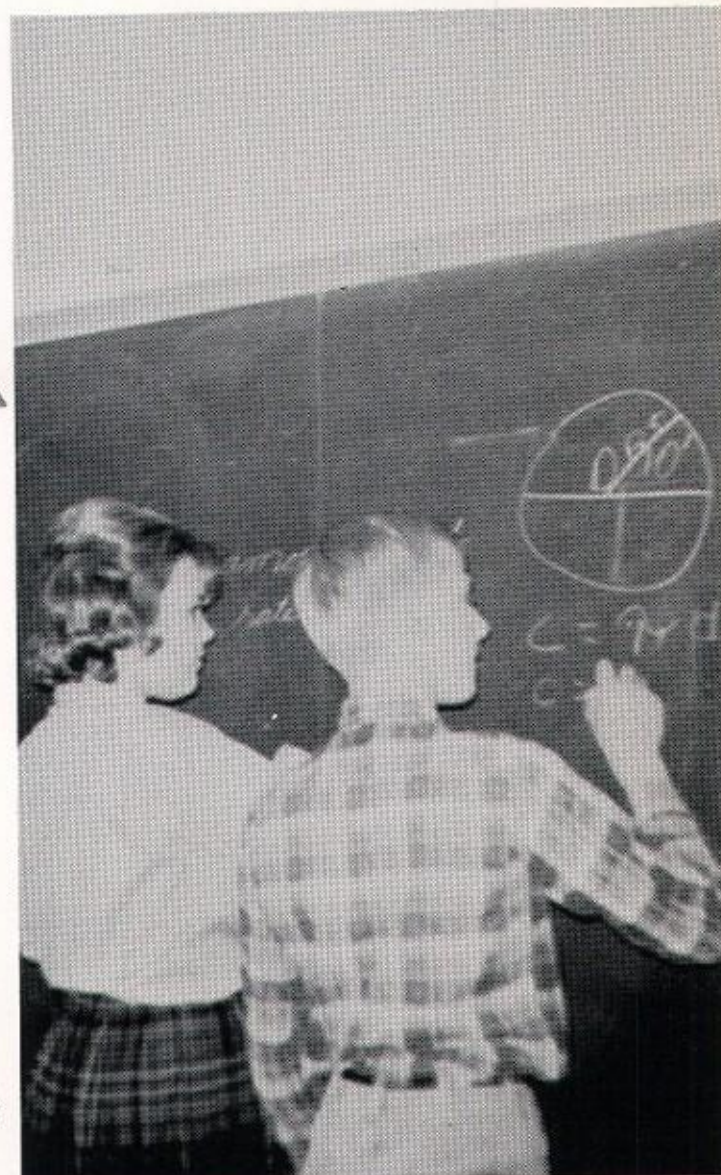

For those students who strive to increase their knowledge of this exact science, the more advanced courses of Plane Geometry, Algebra II, and Trigonometry may be taken. General courses, such as Business Math and Senior Math are also offered.

DEPARTMENT

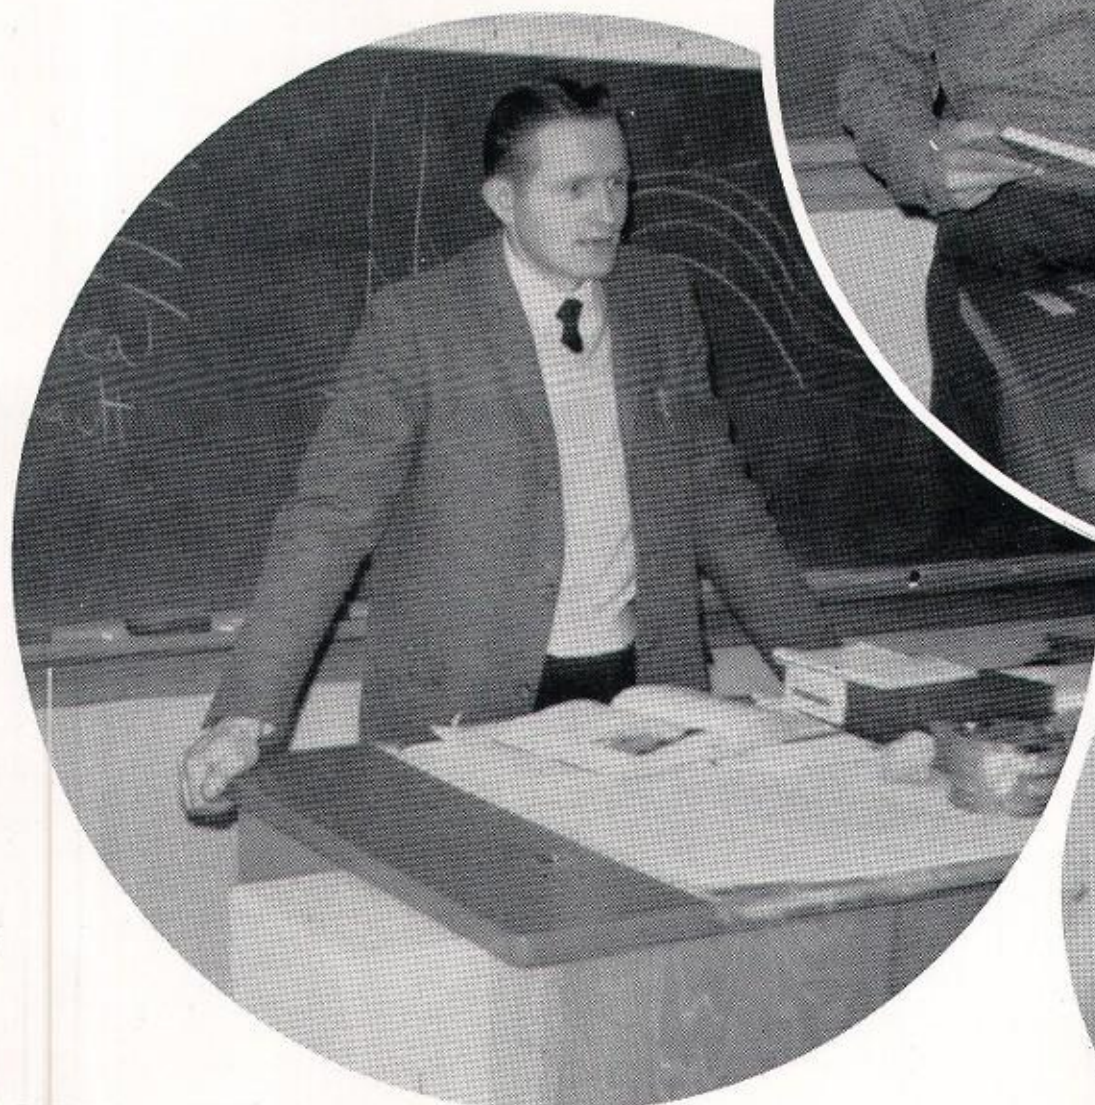

The Science Department offers a variety of courses throughout Junior and Senior High School. Advanced technology in almost any field requires at least some science background. The department aims to satisfy everyone's needs, whether he plans on farming or college; shop work or secretarial; forestry or nursing.

During the first two years at Y.H.S., students are required to take *General Science*, an introductory science course touching on some aspects of biology, chemistry, and physics. A new course for interested freshmen was added this year: *Earth and Space Science*, a study of our solar system and characteristics of the earth. Plant and animal life is studied by all sophomores in *Biology*, while *Chemistry* is a junior elective and *Physics*, a senior elective. *Consumer Chemistry* is an elective also open to juniors. Here, chemistry is related to everyday living. *Physical Science* is a consumer-type physics course open to seniors who are more interested in physics' application to familiar substances rather than strict application of formulas.

Have you ever been frustrated because of a certain teacher who dictates at the rate of 100 miles an hour and that commercial student sitting next to you is taking it pretty calmly with a paper full of those curly Q's? Then there's typing; what a job trying to get your fingers over all those keys! The Commercial Department tries to solve these problems.

Typing solves the mastery of the keyboard by using the touch system of typewriting, and develops typing techniques such as posture, stroking, skillful manipu-

Music

Music gives many of us hours of pleasure; it often relaxes and soothes our tensions. However, to receive the full benefit of music, we all need to develop sensitive and intelligent listening habits. This is the main purpose of music and the chief reason why it is required in seventh and eighth grades. It also provides the students with an opportunity to express themselves in music. They gain additional knowledge about the instruments of the orchestra and band and learn some musical history. If students at the end of the eighth grade feel that another year of music would help them develop their musical appreciation to a greater degree, they may elect it in ninth grade.

MUSIC

ART

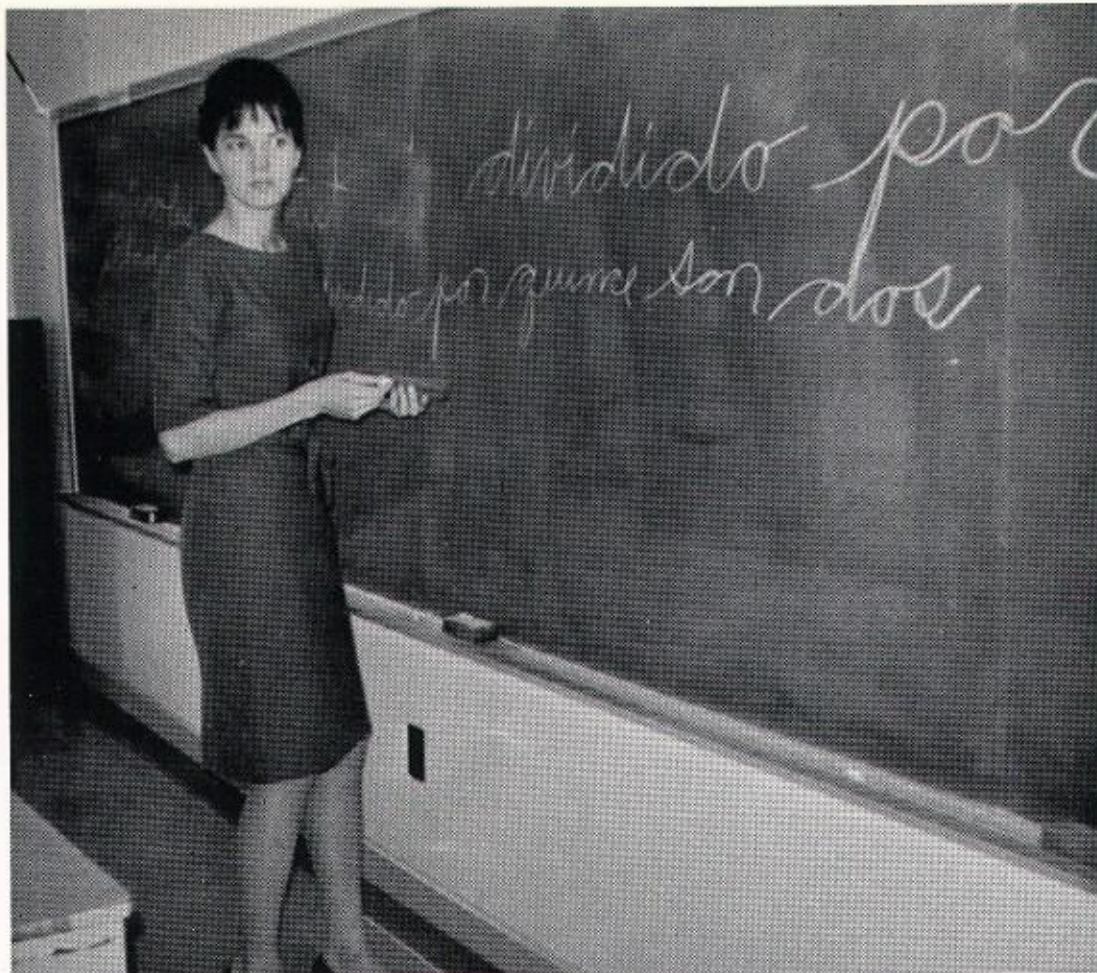

Classes in Visual Art are taught to students in grades seven through nine. The classes are constructed to give the students an understanding of the significance of Visual Art. Mr. Carl Campbell tries to impress upon his students the uses of art in their everyday lives.

The objects of art class are to develop alertness, understanding, and self-realization. Art brings out those things which arouse admiration, approval, or pleasure in human beings.

LANGUAGE

Our Language Department has been greatly expanded this year. French has not been taught here for many years, but it has been brought back into the curriculum. Mrs. Knapp took one period a day to teach first year French, which is open only to juniors and seniors.

Also, Spanish was reopened this year, taught by Mrs. Dickey. Students from grades nine through twelve were able to enroll for one of four classes offered daily.

Latin II was taught to give last year's Latin I students a full credit before the language is abandoned here. This course was taught by Miss Henry.

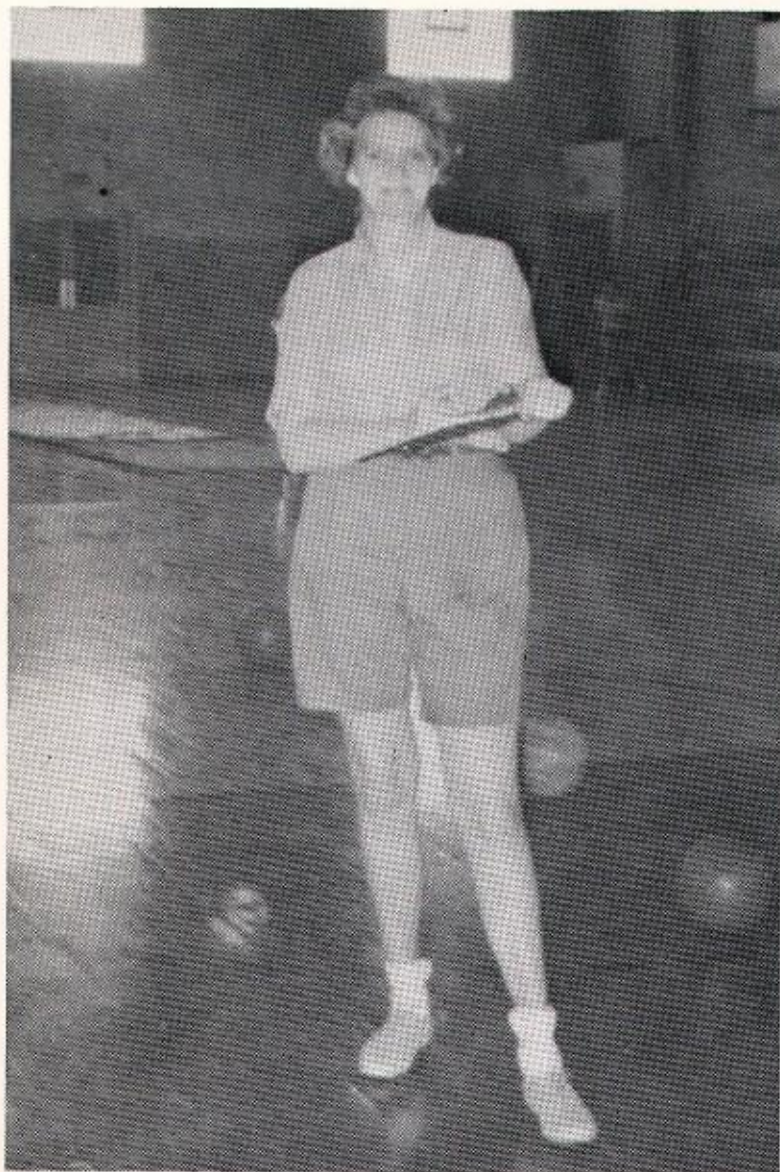

All foreign languages are two-year electives, taught five times per week.

Do you enjoy the challenge which a game of basketball affords or do you prefer to waltz smoothly across the floor to the tune of some beautiful melody? Physical education provides pleasure for all students but it also develops sound bodies, alert minds, good sportsmanship, and cooperation among students. It gives students an opportunity to relax and escape from the tensions of classroom perplexities. Some of the other activities in which the students participate are: volleyball, basketball, baseball, softball, and track. The students also become skillful on gymnastic equipment.

Boys' Physical Education and Health

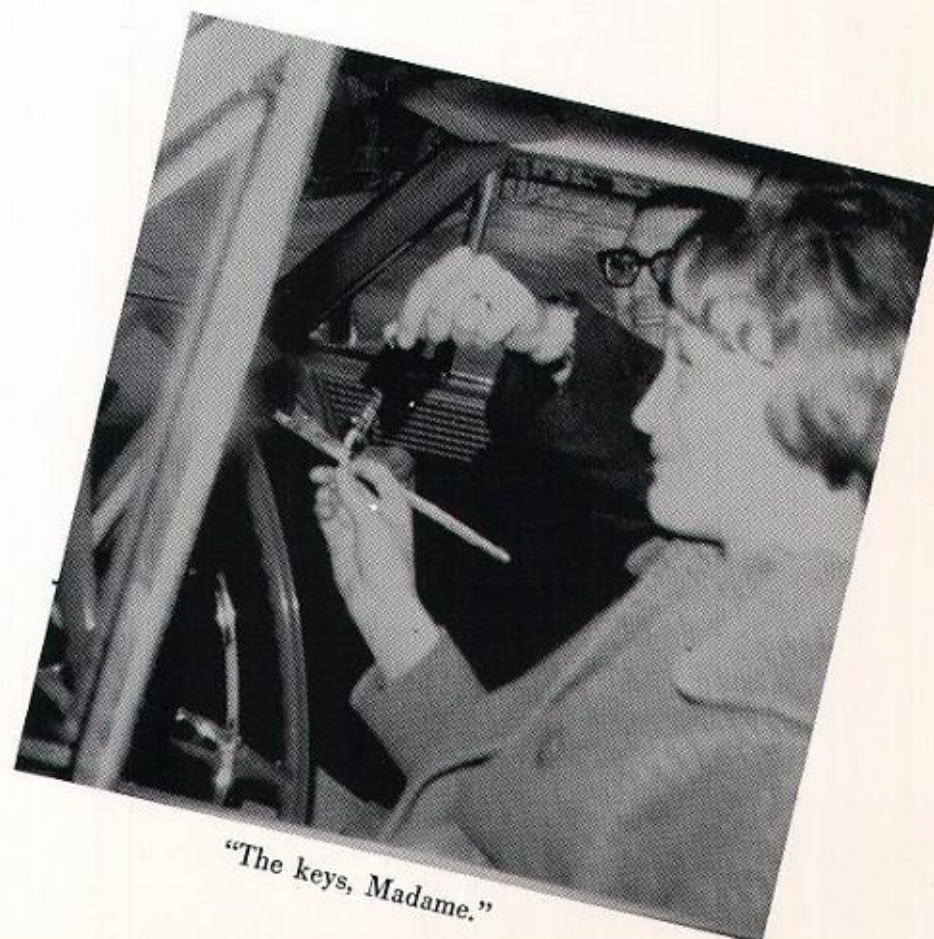

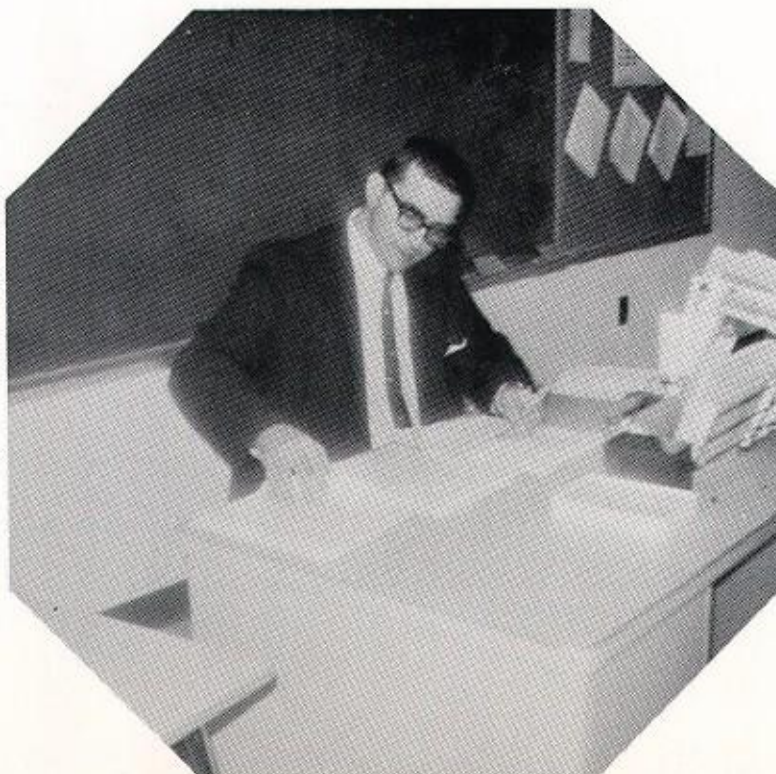

DRIVER'S TRAINING

The car that passed few tests but passed many long study hall hours!

A valuable part of every junior's schedule is the required Driver's Education class. Meeting once a week, the class studies the laws pertaining to drivers of all vehicles and important facts concerning driving. Every student has experience in actual driving sometime during the year. This gives him practical experience along with textbook theory.

No one missed seeing this year's Driver Education car. Mr. Shapiro and his students were whisked smartly about town in a "lively *red* one" from Ford. The car, leased each year from Clark's Ford, is equipped with dual controls for greater safety and instructional value.

MRS. VIRGINIA BRYAN
Vocational Home Economics

HOME EC.

Do you know how to bake a pie? The Home Economic students in our school do. With a fine instructor like Mrs. Bryan, you are bound to learn to cook. In addition to this accomplishment, the girls also learn to be more aware of their appearance, to acquire skills in construction of garments, the principles of nutrition, the making of wise decisions, home nursing, child care, efficient management, and social hospitality.

Home Economics is required for all junior high students. This year for the first time, the Crisco award for the outstanding student in Home Economics will be given in addition to the traditional Betty Crocker award.

The Vocational Agriculture Department not only tries to create an interest in the farming occupation and its related fields, but it also tries to instill in the boys such things as self-confidence, the ability to make wise choices concerning their farming program, a pride in the farm home and its surrounding area, and a greater appreciation of their social, personal and civic duties.

a mechanic or draftsman, but to help him build a background and interest in this field.

The seventh and eighth grade students are required by the State to take industrial arts. Freshman courses in industrial arts are electives.

Industrial Arts has many phases including work with wood, plastics, metal, and electricity.

SPECIAL EDUCATION

MR. THOMAS BUSER

The program in special education was initiated at Youngsville High for the first time this year. The purpose of special education is to provide the best education for those pupils who would otherwise have a difficult time in regular classes. It also enables students who are in special education to graduate with students of their own age.

Students in special education take their main subjects as a group; however, they are integrated with the other students in areas such as art, physical education, music, health, industrial arts, and home economics. The program this year is operated by the Warren County School Board.

GUIDANCE COUNSELOR

Have a problem? See Mr. "T." At the beginning of the year there were, naturally, schedule changes. As time went on, things settled down and Mr. Turchan could perform his other duties as guidance counselor. Testing students and counseling them on the results make up a great part of his duties. His office is always open to students who would like to plan their future careers.

MR. EDWARD TURCHAN

HOME-SCHOOL ADVISOR

To get the parents and school to work together—that's his aim. Mr. Pierce calls on the parents of seniors during the first semester. The second semester is devoted to the visitation of eighth grade parents. A great deal of his time was spent this year visiting the parents of new students. Another of his many duties is to visit students who may be in the hospital.

The second half opened with more centering problems. Youngsville received the kickoff, couldn't move the ball and tried to punt four plays later. The pass was high and Saegertown took over on the Youngsville nine. The first play gained nothing. The second play saw the Eagles throw the Panthers for a three-

plays later. Another dau pass from center on the attempted punt found Saegertown taking over on the four. On the first play Spencer Ferry went around left end for the score. Dave Haemer kicked the extra point. Ferry crossed the goal line again late in the game but it was called back because of a penalty.

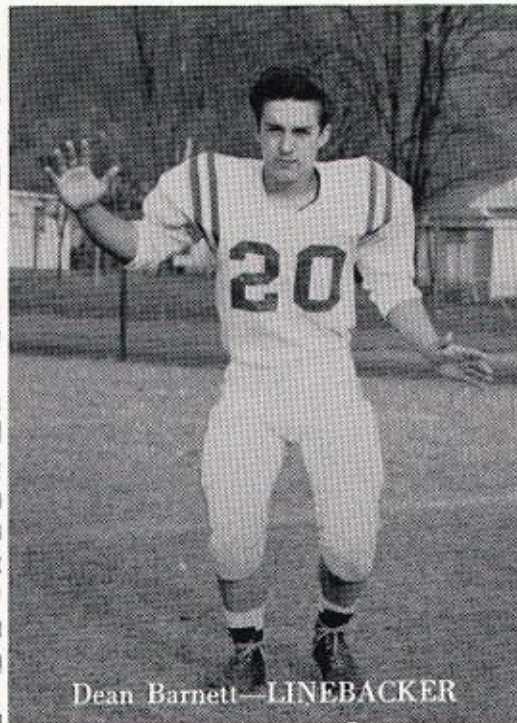

Youngsville gained 11 yards in its first two plays after taking over. On the next play — the first of the second quarter — Sample started through the left side of his line on a keeper play, saw some daylight and went all the way for a 64-yard TD. Frank Mathers' extra point attempt was

ON FRIDAY afternoon there was a pep assembly held on the athletic field with all the students participating. The cheering was excellent and there was much team support at the game with Northern Area on Saturday. But this wasn't enough as the Eagles were defeated 27 to 21 in a very exciting game. The weather turned out beautifully for all the festivities.

Improvement."

Part of the improvement he was talking about will come in the form of better offensive blocking. As early as the end of Youngsville's first series of downs, it was apparent that the line was going to have to do better.

Quarterback Chuck Sample went back to punt. A host of Rockets came through the line and blocked his attempt, taking over the ball on the Eagles' 21.

On the third play from scrimmage after the big break, Rocket quarterback Jerry Wilson dashed over from the two. Larry Jones passed to Neil Hart for the extra point.

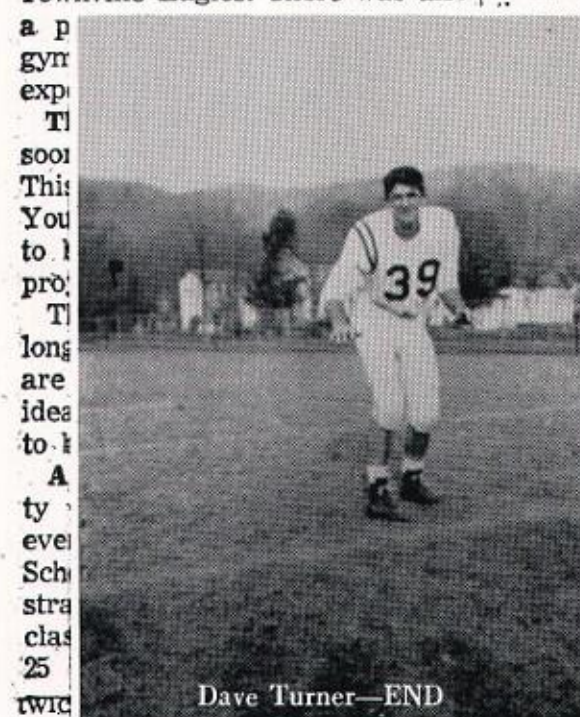

Youngsville took over on its own 37 after returning the kickoff 19 yards and ten plays later had a TD of its own. Sample ran out of the pocket for a first down on the

LETTERMEN

Congratulations, to the Crawford County Champs! Nice goin', fellas. The hard work which went before this successful season began on August 18. Mr. Shea and his assistants: Mr. Tubbs, Mr. T. Dunn, and Mr. Kiesnowski coached these boys to this fine season.

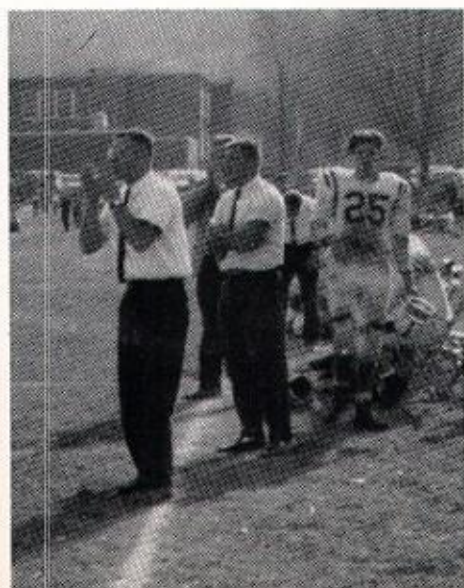

There were fourteen senior boys out of a total of

twenty-two lettermen this year. In order to earn a letter, a boy must play a total of eleven quarters during the season. In order to be given credit for a quarter, a boy must play at least six of the twelve minutes in the quarter.

CHEERLEADERS

The cheerleaders, under the supervision of Mrs. Mabel Dickey, cheered our football and basketball teams to many victories this year.

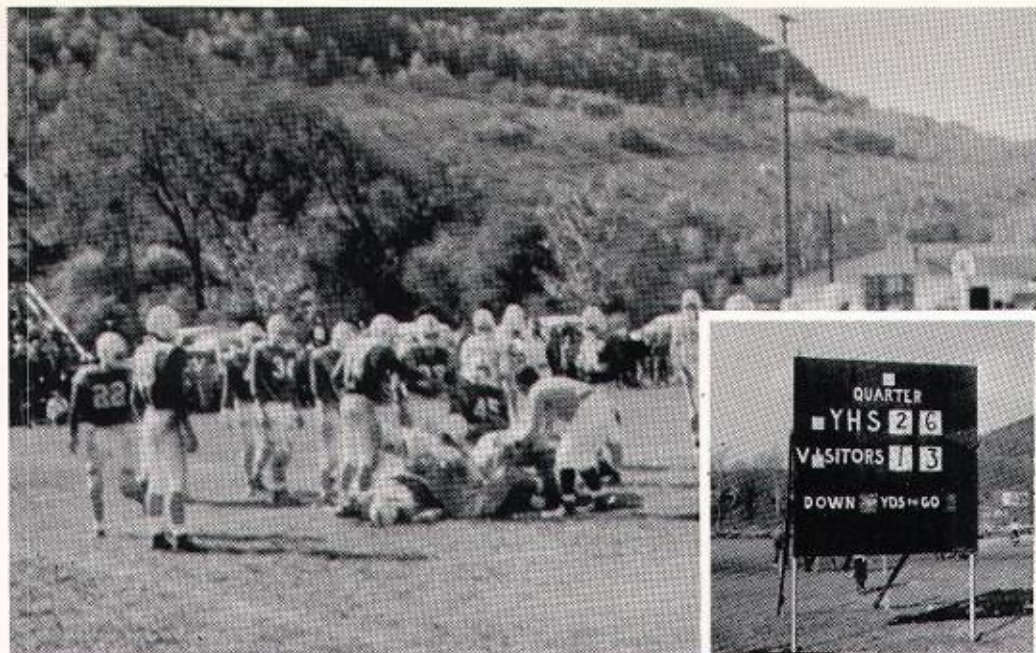

The Varsity Cheerleaders sponsored dances and sold pennants to raise money, which they used to purchase red pleated skirts.

The Junior Varsity Cheerleaders not only cheered for J.V. basketball games, but also for junior high basketball and football games. They furnished their own uniforms and used the newly secured red and white shakers to add to their cheers.

"You can't beat 'em, You can't beat 'em, You can't beat 'em . . . !" This cheer seemed to characterize the 1963-64 basketball season. The team was managed by Frank Kwiatkowski and Terry Lucas. Under the coaching of Mr. James Miller, they had a record of 17 wins and only 3 losses. They were UVAL champions and went to the play-offs at Meadville where they were defeated by Mercer.

There were ten lettermen this year, two of whom were receiving their third letter and seven of whom were receiving their first letter. In order to be eligible for a letter, a boy must have played one-half of the total quarters which were played during the season.

JR. VARSITY

"Victory, victory is our cry!" This cheer from our J.V. cheerleaders helped lead the boys on to victory. Mr. Shapiro coached these sophomore and junior boys on to a season with 19 victories and 5 losses. Toward the end of this year's campaign, a group of these boys played in the varsity games. This successful season might be an indication of the Varsity Eagles of years to come!

The J.V. Eagles were led by Larry Persing with a total of 261 points for the season, followed by Denny Rigby with 111, Al Scott with 103, and Denny Mason with 101. The other boys and their scores were Lennie Thompson, 93; Don Snow, 64; Pat Shine, 61; Bill Slocum, 59; Ed Coleman, 48; Ken Buchanan, 10; Bob Wing and Tom Radecki with 7 each; and Tom Kane and Terry Radecki with 2 each. Muscles become tense as our boys prepare to run.

Track at YHS is the harbinger of Spring. When the sweat-suited Eagles begin jogging around the oval, Spring cannot be far behind.

The YHS team, coached by Mr. Toby Shea and Mr. Harvey Shapiro, was characterized by a will to win and a readiness to work.

Track's a sport where an individual's effort is sometimes more important than a team effort. But, whether the event was a solo as the high jump or a team effort in the mile relay, our Eagle thinclads developed a fine record for the season.

The May Day exercises for 1963 were held on May 15. The highlight of the afternoon was the crowning of the May Queen, Mary Stec, who was escorted by John Bosko. The sophomore girls presented the traditional May Pole Dance in honor of the Queen.

Patrick Black, Steve Meleen, Anthony Roberti, and Chuck Sample were chosen to attend Keystone Boys State held at Penn State University, and Mary Stec was selected to attend Keystone Girls State held at Shipensburg, Pennsylvania. Judy Lanning and Dave Cowles were the recipients of the American Legion Auxiliary and American Legion School Awards respectively. Awards were also given for scholastic achievements and membership to clubs throughout the year.

HOMECOMING

The second annual Homecoming exercises were held October 12, 1963. The announcement of the Queen was made by Bonnie Anderson at a dance held by the cheerleaders on the eve of the Northern

Area vs. Youngsville football game. The lovely Queen was Diane Kay, escorted by Bart Green. Sue Sherwood, last year's Homecoming Queen, crowned Diane during the halftime ceremonies of the game.

STUDENT COUNCIL

The Student Council is the governing body of our high school, under the guidance of Mrs. Knapp. The members are elected by their fellow classmates in each homeroom. Also, each class as a whole elects delegates to represent them in the Council. These students must have an 85 average grade.

One of the Council's first activities was the "Welcome Inga Dance." The foreign exchange student is always an honorary member of this group. Each year the Council presents a yearbook and an American Flag in remembrance of Youngsville and America to our exchange student.

A new idea, that of having a receptionist in the lobby every period to receive and assist any visitors to our school, was started this year. The group voted on the assemblies to be presented during the 1963-64 school year. A committee from the Student Council worked with class presidents and faculty members to set up standards and rules concerning school dances. The Council sponsored the "Frosty Night," our annual Christmas Dance, on December 20. As a money raising project, they sold folders in the lobby. Again, the group presented scholastic achievement pins to those students who ranked first, second, and third in each class.

Miss Henry and Mrs. Ingols busily reviewing a new selection of books which has just arrived in the library.

LIBRARY

The new library, which was opened this year, contains 5,727 volumes and has a potential capacity of 8,000 volumes. Seating capacity is now 75 people, which is 43 more than the old library could seat. The doors were opened September 25 for limited service to students in grades 10, 11, and 12. During the week of October 21-29, the seventh grade was orientated to the layout and operating procedures of the library, and on October 30 the library was opened to the entire student body.

The library training class, consisting of 47 students, meets in the library during activity period. This class familiarizes interested students with the functions of the library. They learn the classification of books and their arrangement on the shelves in addition to various duties they will perform as library assistants. There are 52 other staff members who work in the library with the training class.

LITERARY

"Write-ups, write-ups, write-ups, forever write-ups!" This is a familiar exclamation from everyone on the literary staff. But, of course, that's what this staff does. In addition, they help with the identifying of pictures, writing of captions, and alphabetizing of the names for the class sections and the index.

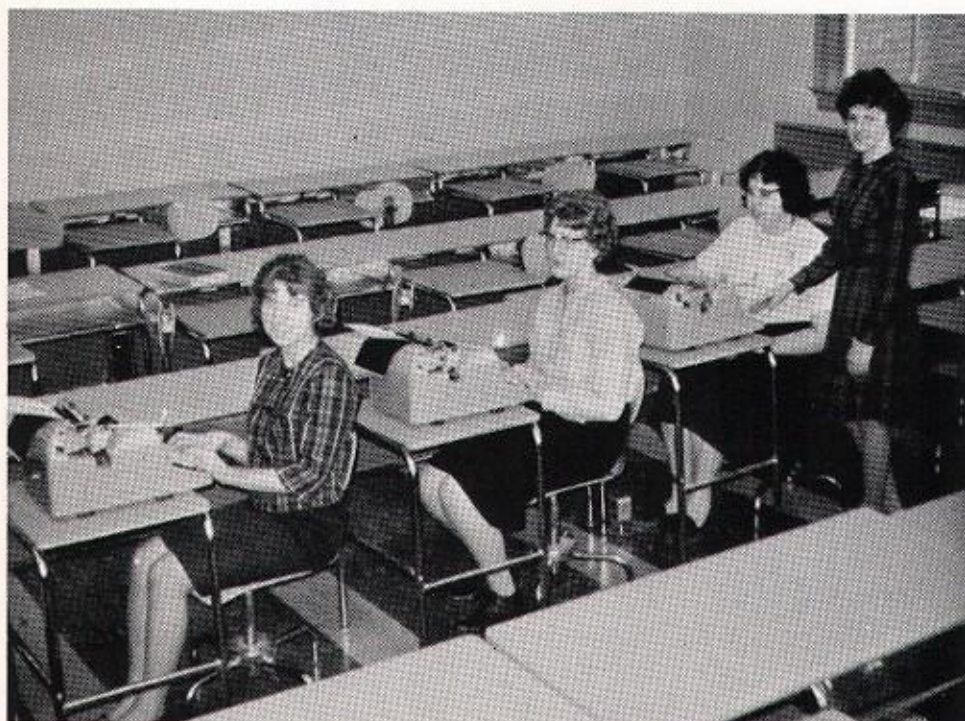

Left to Right: C. Emerson, J. Mack—staff editor, E. Mills—assistant editor, L. Turner.

LAYOUT

"Lay it out." "It's wrong!" "Lay it out again!" This group of imaginative students plan the positions of the pictures and write-ups on each page. Layouts are done on special forms, the exact dimensions of the pictures and their positions are drawn through on triplicates. The completed triplicates are sent to the publisher as blueprints for printing the pages.

Left to Right: C. Pierce, S. Moniak, T. Strickland—staff editor, J. Chitester, M. Kibbey, S. Wood.

TYPING

All the material which is to be printed in the book must be typed on the triplicates. Our typists are the back-bone of the staff. Without their efforts, a single page could not leave for the publisher. These girls strive for accuracy because errors must be erased three times!

Left to Right: A. Gantz, C. Nelson, V. Moronski, M. Stec—staff editor.

ART

Throughout the book are small drawings and spot designs. These are the work of the art staff. Much care is taken with these drawings, for each must complement the page as well as fit for size.

PHOTOGRAPHY

The photography staff took all of the action shots found throughout the book. Wally Long, our young apprentice, is learning which way to point the camera. We hope to see him snapping the shutter for a few years to come.

Left to Right: W. Long, J. Huselton, K. Hajnik, B. Crippen.

EDITOR

"Let's get that done—tonight!", a familiar cry from our editor who wants to get things done! The editor's task is no easy one, but Carol has really done a tremendous job. Examine the book and see for yourself!

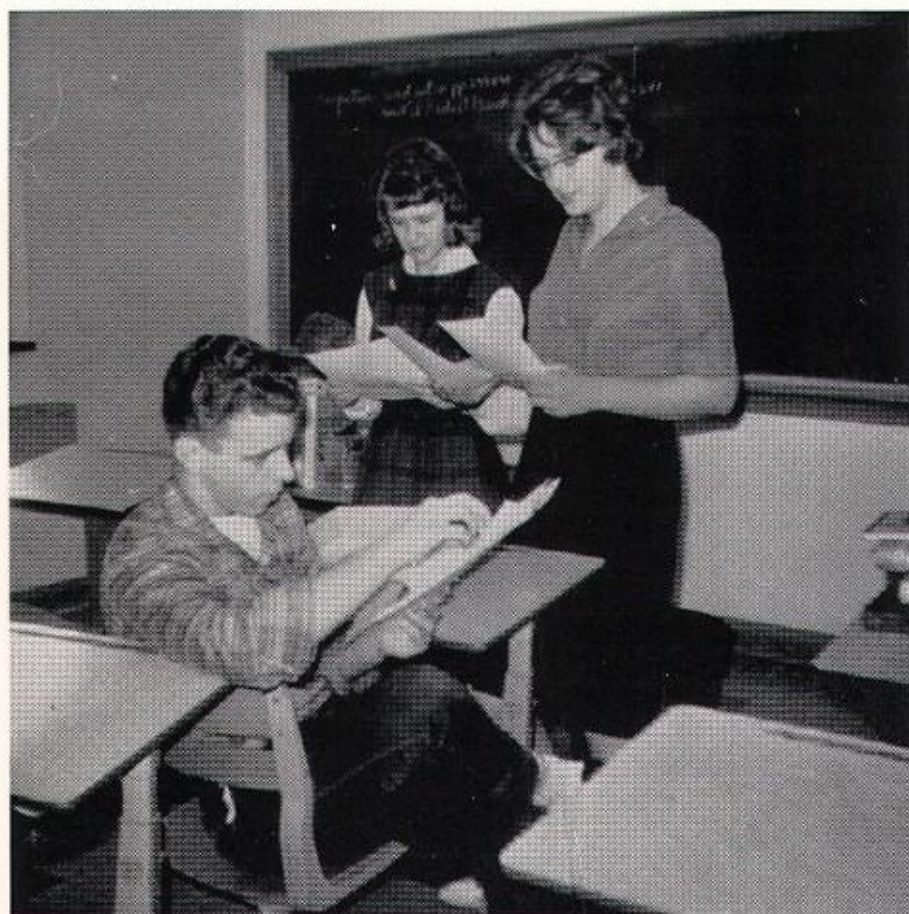

CAROL MONG

ADVISOR

The *Broadwalk*, our school newspaper, is published monthly. Two new teachers, Mr. Nadal and Mr. J. Dunn, were named as advisors of the paper this year. With Doug Jewell as editor and a large, ambitious staff of reporters, one of the best newspapers ever published at Y.H.S. rolled off the press this year.

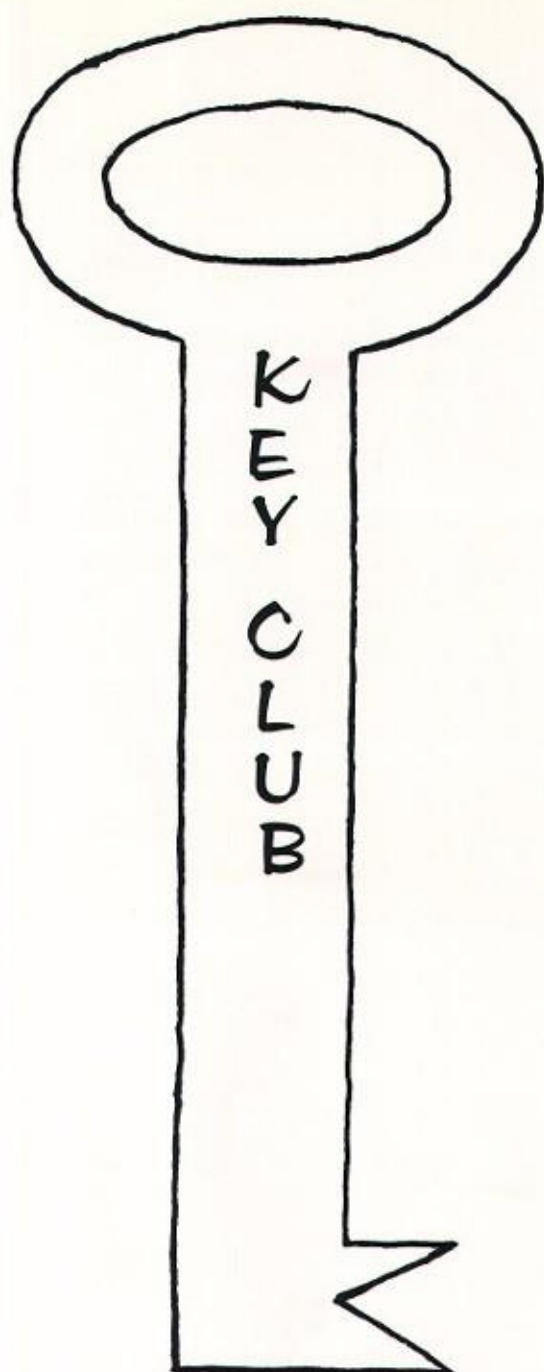

Reporters could be found haunting classrooms and lurking in corners. They snatched pieces of information daily from whomever and wherever they could to select a Boy and Girl of the Month in addition to a Teacher of the Month. A few items of intriguing gossip were a specialty of our snoopers. Events of interest always received adequate coverage as did club activities, class projects, and sports.

Jeanne Natale and Elaine Rhodes sent news items from Y.H.S. to the *Warren Times Mirror* every week.

The Key Club is a service organization which tries to prepare young men for future life by developing such qualities as initiative, leadership, and citizenship. Once a month, five of the nineteen boys attend the local Kiwanis Club meeting. In cooperation with the Kiwanis, the boys help maintain Peters' Park. One Key Club boy and one Kiwanian work together at Peters' Park keeping it clean and in repair. The boys also help the community by assisting in the before and after tasks at the fairs and carnivals. On Monday mornings, the boys in the club carry supplies for the teachers.

This year they sponsored a dance and sold popcorn at the football and basketball games. These money raising projects helped to send the boys to their state convention and pay for their jackets.

VARSITY CLUB

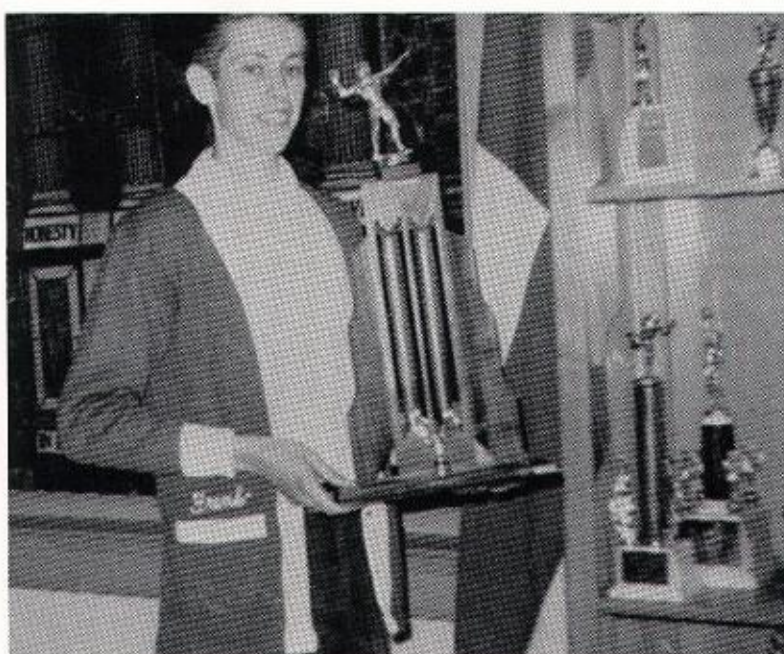

Those boys in the red jackets selling candy at the games are members of the Varsity Club. But really, they are more than that. This is a club made up of the athletes of our school. Any freshman, sophomore, junior or senior boy who has earned a varsity letter in any sport is eligible for membership. Those boys receiving three letters are awarded varsity jackets. And what a proud day it is when those jackets arrive! Where do the greenbacks come from to pay for these jackets? From their candy sales at the basketball games, and from the dances they sponsor after the Friday night basketball games. And who is the advisor of this group?—None other than Mr. J. Miller.

Due to the remodeling of the High School, no summer meetings were held nor activities attempted. Induction of new members and installation of this year's officers were held in September with a candle light ceremony followed by refreshments. The officers with their sponsor, Mr. Waide O. Ingols, attended the State Workshop in September at Gettysburg Interchange. Here, the group attended meetings to plan for the State Convention and money-making projects. For the complete football season, the club has operated the concession stand and made and sold football programs for each of the home games.

In October of this year, the Youngsville F.B.L.A. was host for the Fall Regional Meeting for Region I. Warren, Union City, and Lawrence Park are a few of the chapters that attended. The club also served for the Kiwanis Banquet. Every year the F.B.L.A. visits the Hoffman Children's Home

in Warren at Christmas, bringing each child a gift and having a little party for them. Also, sunshine baskets were made to cheer the women at the Rouse Home at Christmas. An annual event held by the F.B.L.A. is the Faculty Banquet. The teachers were entertained by a few of the students of this school. The members of the club attended the Spring Regional Meeting for Region I, which was held at the Warren Area High School in April. Winners of contests from the Spring Regional Meeting will attend the State Convention at Gettysburg Interchange in May.

The F.B.L.A. earned money to attend the State Convention by sponsoring the concession stand at the football games where hot dogs, pop, and coffee were sold. Bake sales, dances, and the sale of license plates with YOUNGSVILLE printed on them also helped fill the till. At all the home basketball games, programs were made and then sold.

"Now some suggestions on how to paint!"

The Art Club, under the direction of Mr. Campbell, has as its goal, the promotion of a greater sense of visual perception and aesthetic appreciation. Because of the nature of this club, much of the work is done individually.

The main service rendered by this organization is designing and painting posters for various school activities. Members contributed paintings of the surrounding area for a sidewalk art festival in order to obtain funds for future projects.

As junior stockholders in our nation and the world, we owe it to ourselves to make every effort to understand the functions and the value of the United Nations. The members of the Model U.N. group strive to attain this goal. They do this by attending the mock General Assembly meeting held at Gannon College every spring. This is just like a meeting of the United Nations general assembly on a small scale and is a very valuable learning experience. The group that attends the Model U.N. is under the guidance of Mr. Orval Borton.

SPORTSMAN CLUB

Left to Right: Tom Fitzgerald—Secretary-Treasurer; Gary Brown—President; Tom Holcomb—Vice President.

The new Sportsman Club has been organized by Mr. Waddell to encourage boys in the fields of hunting, fishing, camping, and other outdoor sports.

Several films from the Pennsylvania Game Commission were viewed. Demonstrations and discussions of the new equipment used in hunting and fishing were observed and held by the members during the year. This organization is open to all boys from seventh to twelfth grades.

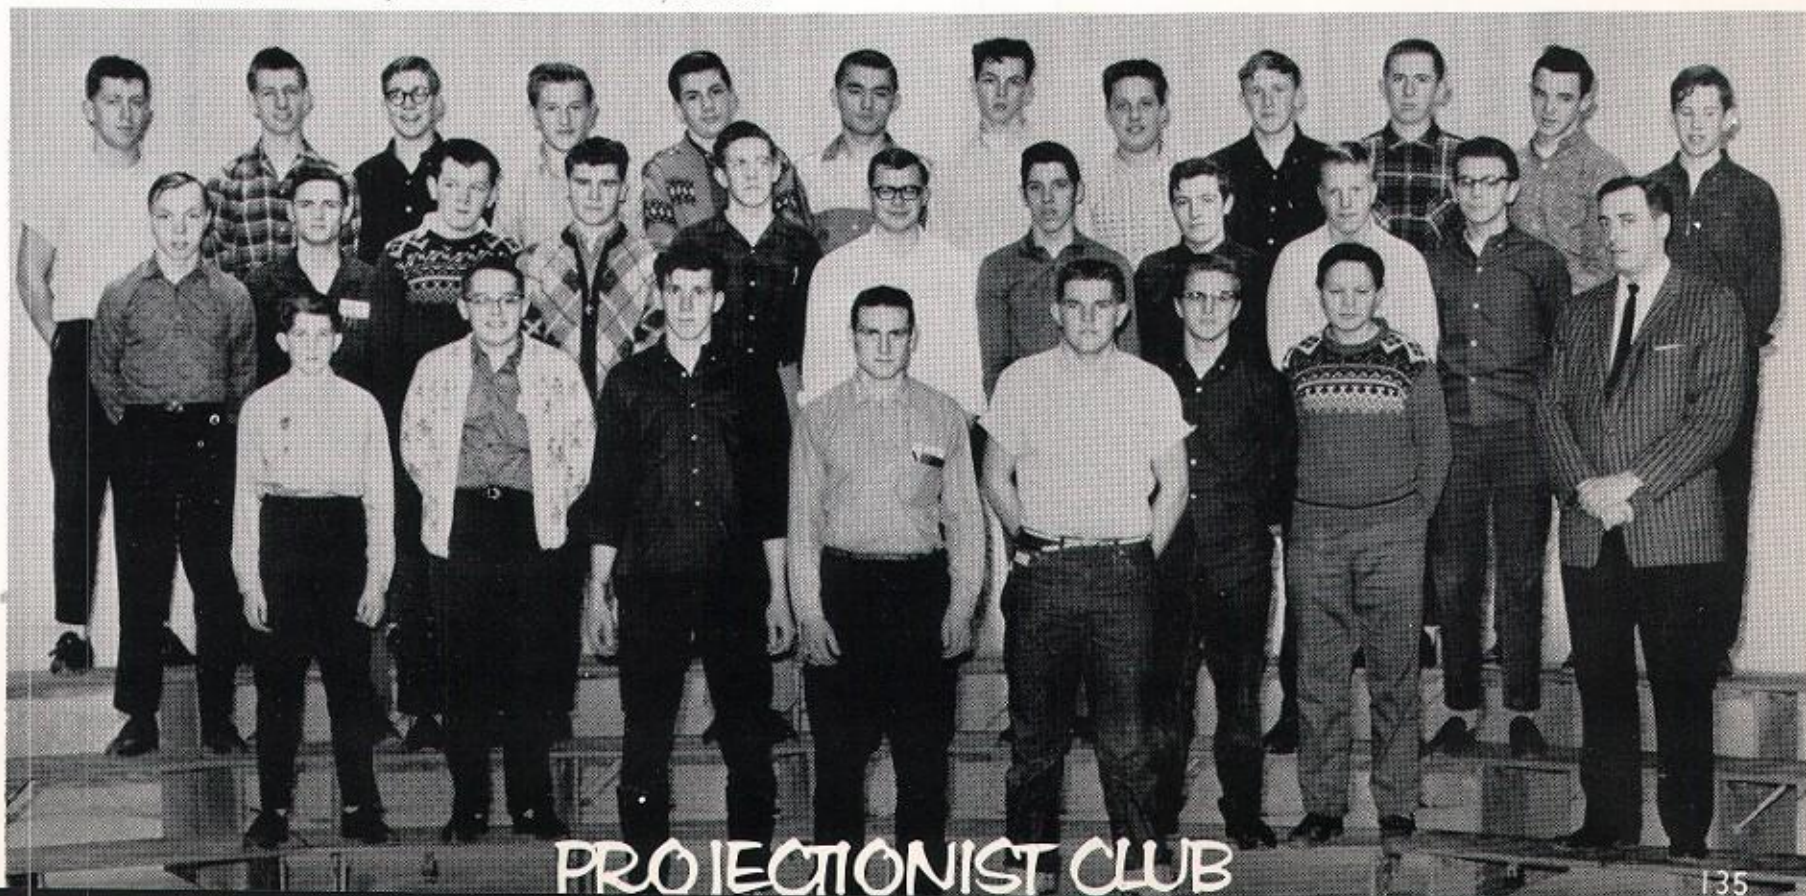

Left to Right: Seated: P. Schillinger—Secretary-Treasurer, J. Morrison—Vice President, D. Lund—President. Standing: C. Scott, H. Russell, D. Curry, J. Moronski, B. VanGuilder, J. Rodgers, C. Bemis, Mr. Kahle—Advisor.

The Stage Crew, under the supervision of Mr. Kahle, are our "men behind the scenes." Credit must be given to these hard-working fellows, for the success of many school activities depends on a job well done. This year, in addition to working on props for assemblies and plays in the auditorium, a few of the crew have had to become "technicians." Running the lights in our new auditorium is no longer a simple task.

Don't you enjoy a class more if there is a film to assist you in your studies? Thanks to these boys who show the films, classes are almost bearable! Besides running the projectors, these boys repair them and keep them in working condition.

F.H.A. President and Advisor, Mrs. Bryan, working together during a meeting.

The F.H.A. is a national organization of home-economic students. The members of the F.H.A. worked on their junior, chapter, and state degrees this year. Nancy Deshner received her state degree which is the highest degree given. The award was presented to her in Harrisburg on January 15, 1964.

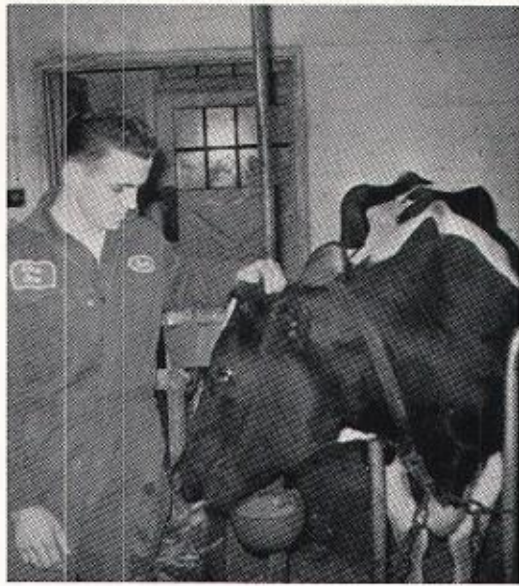

The F.H.A. had a Christmas party at which they exchanged gifts. In order to raise money, they sold cookbooks, with the girl selling the most receiving a free cookbook.

The following girls attended the Farm Show in Harrisburg on January 13, 14, and 15 of this year: Nancy Deshner, Frances Etter, Pat Love, Jane Mourer, Linda Wiler, and Jane Zurcher. While there, they had a chance to visit the capitol.

F.F.A.

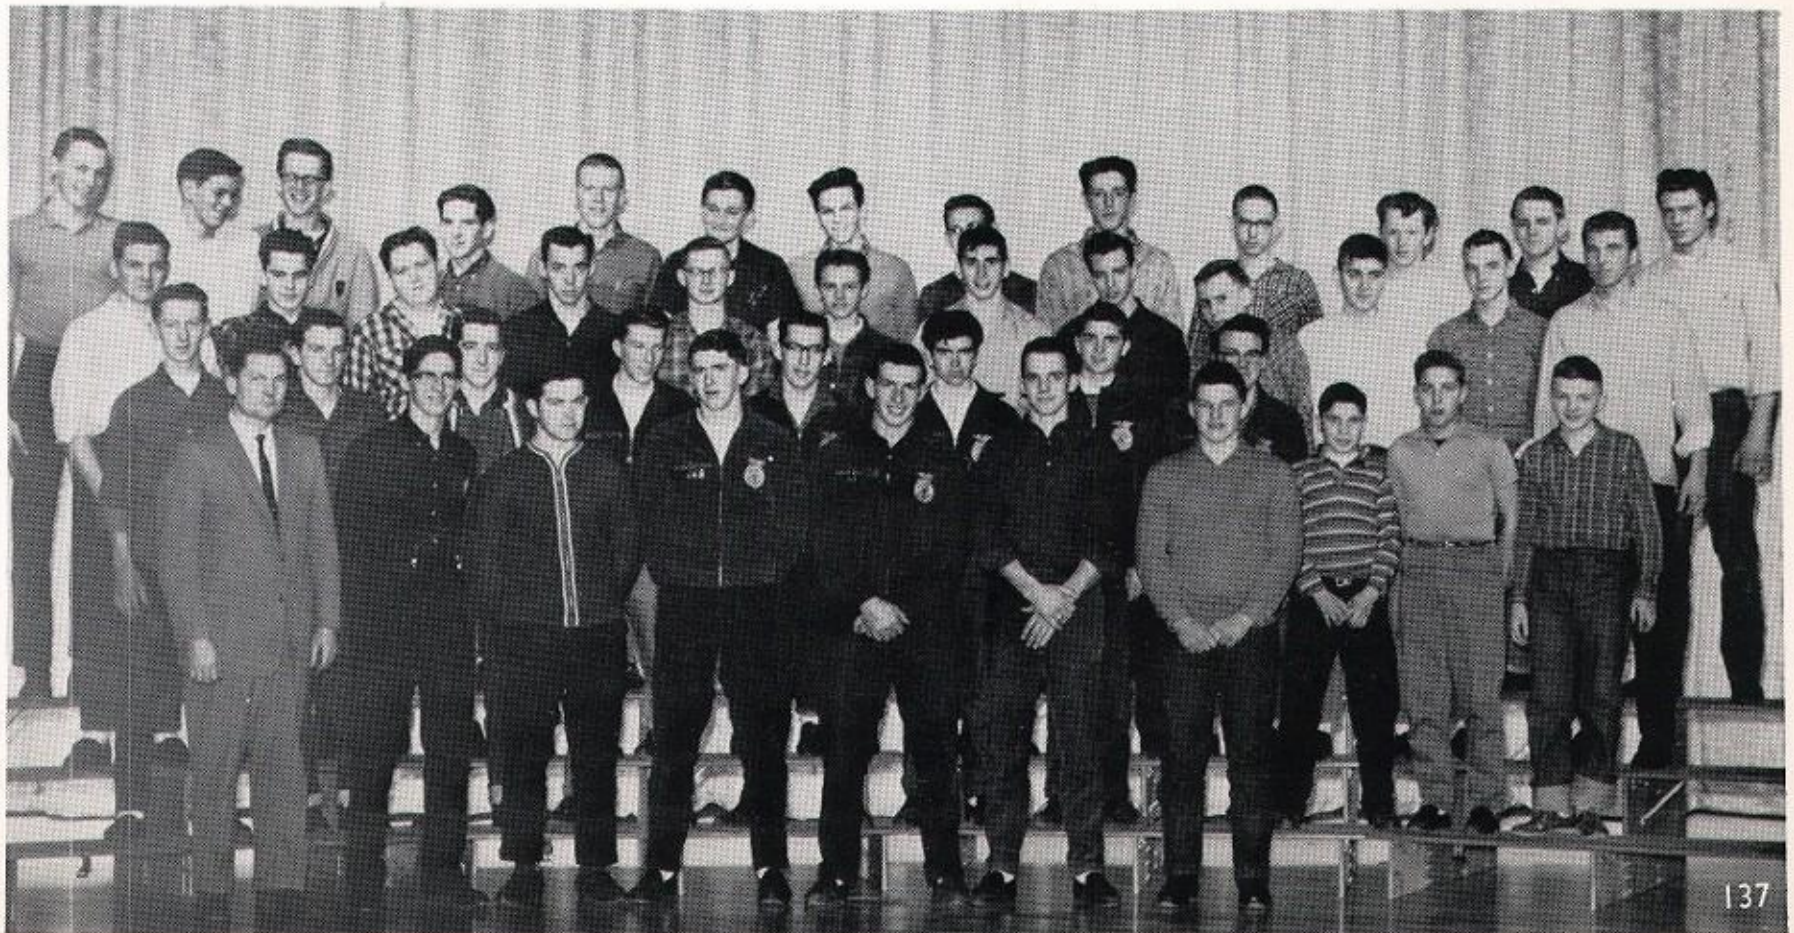

The F.F.A. is a national organization for all boys who are interested in agriculture. This club was organized to give boys an opportunity for a vocational education covering all phases of farming. Methods of raising money in this club include dues and selling seeds.

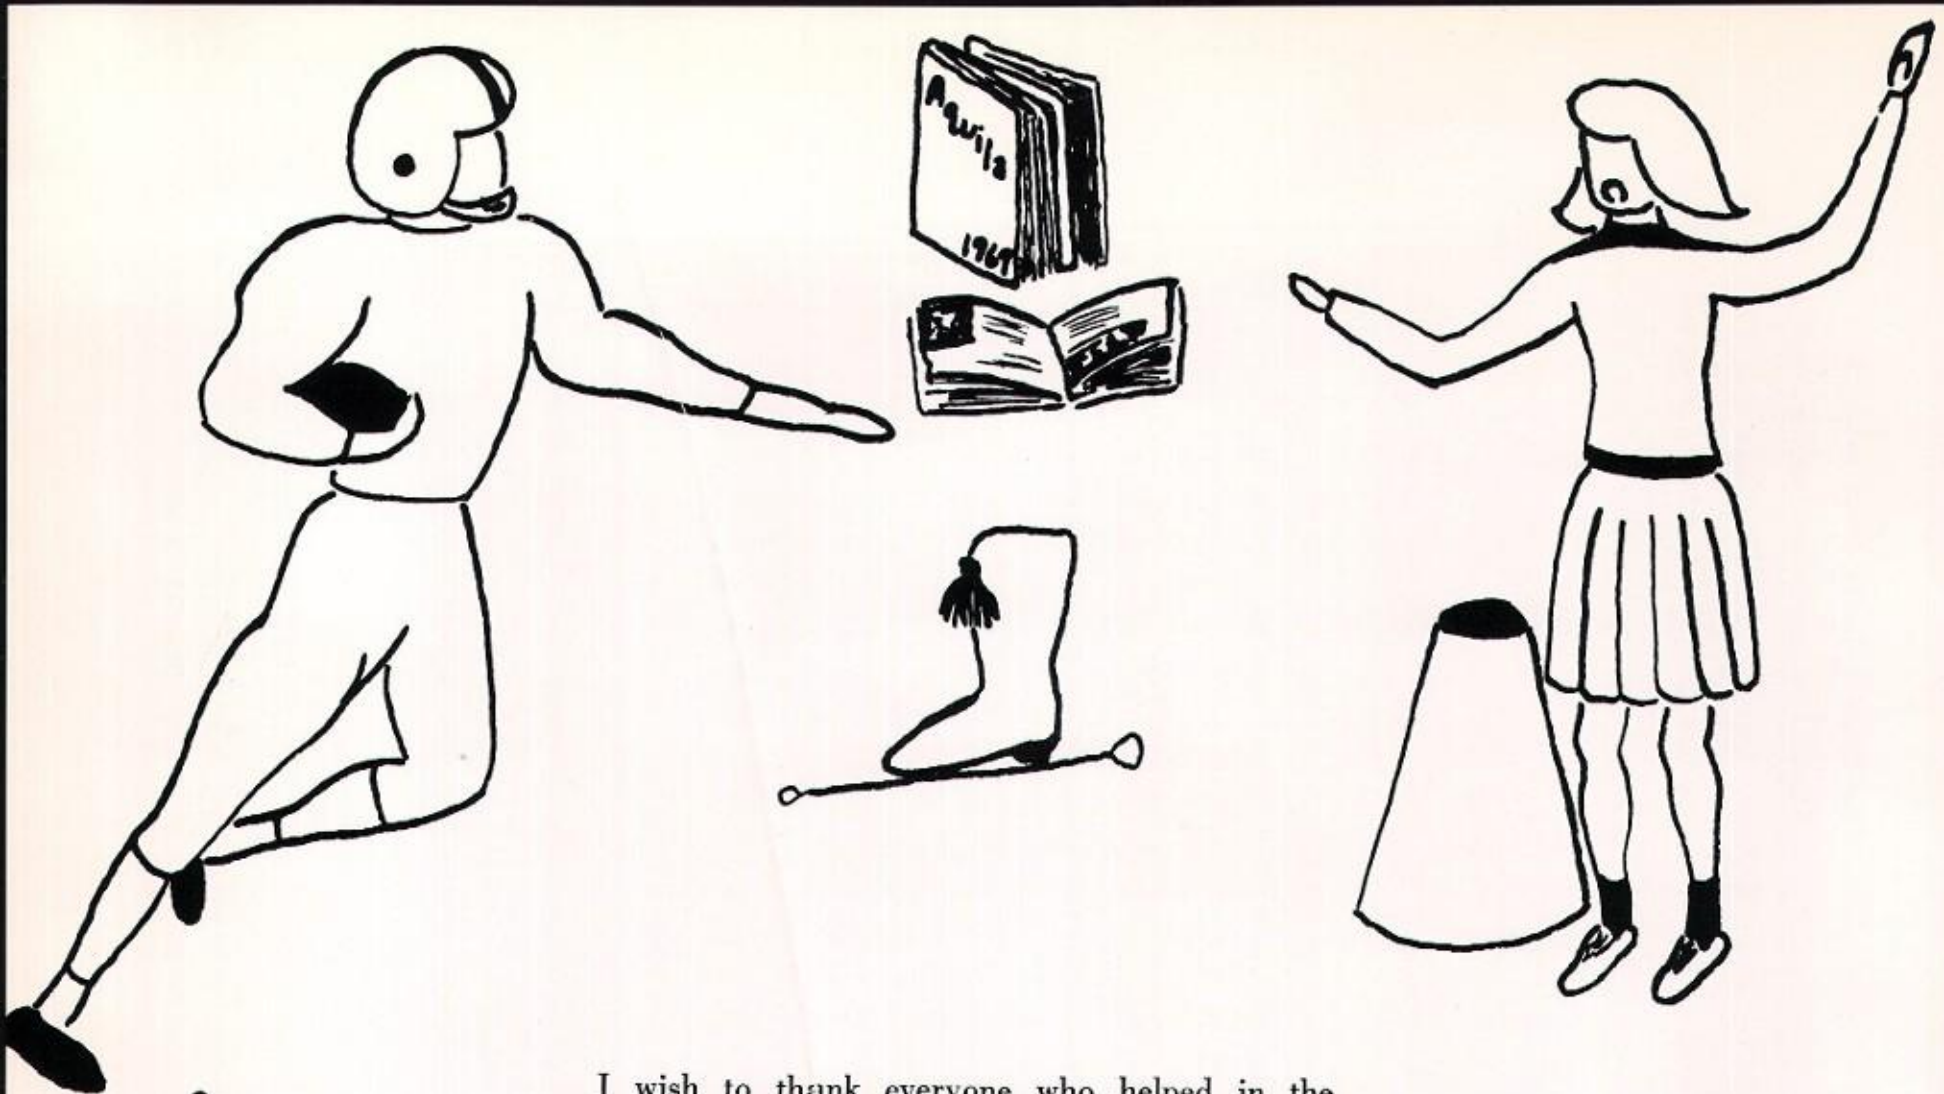

On January 13, 14, and 15, these boys attended the Farm Show in Harrisburg: Howard Burleigh, Dennis Theuret, Donald Shellhouse, Harold Groves, Jim Kellogg, and Paul Gurdak. At the Farm Show, the boys were particularly impressed with the farm machinery display and the dairy judging.

This year's officers were: D. Turner—President; H. Burleigh—Vice President; H. Camp—Secretary; A. Devore—Treasurer; J. Howell—Chaplain; T. Haight—Reporter; H. Camp—Sentinel.

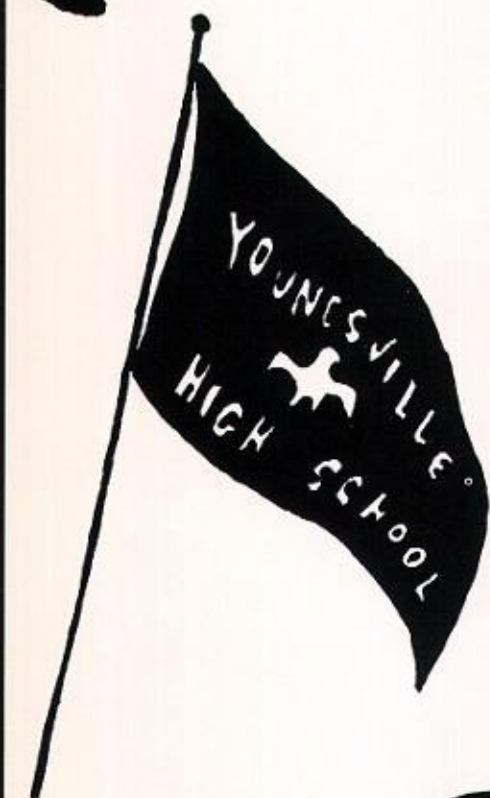

Left to Right: Row 1: Mr. Hummer—Advisor, T. Haight, H. Camp, D. Turner, H. Burleigh, A. Devore, H. Camp. Row 2: L. Graham, D. Theuret, R. Young, D. Curry, H. Russell, J. Taylor, E. Hamilton, C. Rigby, B. Proctor, J. Morrison, L. Morris, H. Groves, J. Asp, J. Kellogg, D. Shellhouse, P. Gurdak, W. Peterson, B. Johnson, M. Smith, J. Rodgers.

I wish to thank everyone who helped in the production and financing of this year's book. My staff and I have striven to make this the best volume of the Aquila to be produced. After you have viewed the entire book, it is my hope that you will be greatly satisfied with its contents and the efforts which have gone into it.
